War on Words Joanne M. Lisosky, Jennifer R. Henrichsen, 2011-07-13 This unprecedented book provides a comprehensive examination of the issue of protecting journalists in conflict situations from both a practical and humanitarian law perspective Violent criminals and corrupt governmental officials harass, co-opt and kill local and foreign journalists in countries from Mexico to Afghanistan to Russia and the Philippines Staggeringly there has been little or no prosecution in 89 percent of journalist murders worldwide Such widespread impunity is arguably one of the greatest threats to press freedom A number of international organizations and advocates have developed efforts to mitigate this problem but belligerents continue to act with few restraints and little if any accountability War on Words Who Should Protect Journalists is an examination of the deteriorating and dangerous environment facing journalists and what stakeholders are doing to address this serious problem threatening democracy worldwide The authors explore the peril facing journalists delve into the legal and practical history of press protection evaluate current safety strategies for journalists and gather opinions from an array of local and international correspondents and practitioners on how to improve this untenable situation **Guide de voyage**

Movement: Associative History 1971-2011 Laurence Binet, Martin Saulnier, 2019-06-04 When Médecins Sans Frontières MSF was founded in 1971 it was founded with both international and associative dimensions International because it wouldn't have made sense for MSF France on its own to aid threatened populations around the world and associative because civil law in France especially the 1901 law governing charitable bodies was perfectly suited to the MSF organisation's guiding precepts which are democratic and selfless in nature Yet MSF's development from a small purely French organisation to an international associative movement was never carefully planned or particularly smooth MSF's development was the result of various compromises between the movement's leaders with their individual agendas and the integration of fait accompli when necessary The evolving modifications were debated at length to ensure that concerns raised were legitimate and that there was agreement for decisions made The nature and the validity of MSF's leadership were regularly challenged as was the question of how MSF should grow while remaining true to its humanitarian precepts This case study elaborates the

history of the MSF movement from inception in 1971 through 2011 when MSF legitimised an international governance system and architecture The study is divided in two episodes Episode One reviews MSF's first three decades 1971-2000 Episode Two is about the challenges of the early 21st century from 2001 to 2011 *Comprehensive Guide to CDS OTA Exam* Disha Experts, 2020-08-18 *The Oxford Guide to Treaties* Duncan B. Violence against Kosovar Albanians, NATO's intervention 1998-1999 Laurence Binet, 2016-05-18 The Violence against Kosovar Albanians NATO's intervention 1998-1999 case study describes the constraints and dilemmas facing Médecins Sans Frontières teams that witnessed a process of terror and expulsion which they described as the deportation of Kosovar Albanians by Serb forces It also described MSF's reaction to NATO aerial bombings and the control exercised over the refugee camps by this party to the conflict Should MSF denounce the violence being committed against Kosovars at the risk of being excluded from access to these people and of encouraging the NATO intervention Should MSF take a stance on the NATO intervention What sort of relationship should be established with countries that were committed either militarily such as NATO members or politically Greece in the conflict and their civil societies Should MSF raise the alarm about the absence of the UNHCR in the management of the refugee camps at the risk of reinforcing this marginalization Is it justifiable to carry out an assessment mission that sacrifices the principle of operational independence by invoking an interpretation of the principle of impartiality that implies a responsibility to assist victims on both sides of a conflict **The Blackwell Guide to Medical Ethics** Rosamond Rhodes, Leslie P.
