Meditations Translated Introduction Maxwell Staniforth:

Meditations. Translated with an Introduction by Maxwell Staniforth Marcus Aurelius (Emperor of Rome), 1964 **Time and Mind** J.J.A. Mooij, 2005-02-01 This book deals with the history of a central problem in the philosophy of time Can time exist without mind or consciousness and if not in what respects Aristotle was the first to formulate this problem and it has been intensively discussed ever since This book analyses the answers and arguments and sets them in their historical context Although there have been very different approaches the book shows important continuities as well Besides being a specialist monograph it can be used in courses on the philosophy of time in general or on the realism idealism debate **A History of Psychology in Western Civilization** Bruce K. Alexander, Curtis P. Shelton, 2014-07-03 A fresh and radical analysis of psychology's scholarly roots and its potential for the future **Sin in Origen's Commentary on Romans** Stephen Bagby, 2018-04-30 Sin in Origen's Commentary on Romans examines Origen as a critical third century voice seeking to articulate a cogent doctrine of sin and presents his magisterial Commentary on Romans as a unique window to understanding his mature thought on the subject It argues that Origen's teaching on original and volitional sin demonstrates continuity with and divergence from the prevailing theological tradition It offers a substantial revisionist account of the thought of one of the most important thinkers in early Christianity and takes up important anthropological and soteriological questions in Origen as presented in a key but often neglected text in Origen's corpus of biblical commentary **The Christ Is Dead, Long Live the Christ** Andrew Oberg, 2022-07-07 The Christ Is Dead Long Live the Christ A Philotheologic Prayer a Hermeneutics of Healing is a call for renewal and reinvention Following a brief examination of the historical Jesus Yeshua using his actual Aramaic Hebrew name the book moves into a phenomenological study of the image idea and the place of both in our felt experiences Looking closer at what we think were the actual words of this wandering sage the picture we arrive at is one that will surprise possibly unsettle Moved out of our traditional comfort zones we find the need to question what we have been told were Yeshua's teachings compelling us to further rethink messages on the afterlife human finitude so called atonement theologies and above all the kingdom of God Whatever this vision was and might yet be it seems central to Yeshua's efforts and so we finally weigh these kingdom facets against a broader ideascapes offering suggestions for how a Yeshuan kingdom project situated within the panoply of a widely comprehended Judaic way of being might yield fresh life to we who find worth in the utterances and what they point towards to we who wonder about a more humane world **Stoic Philosophy and Social Theory** Will Johncock, 2020-05-28 This book puts recently re-popularized ancient Stoic philosophy in discussion with modern social theory and sociology to consider the relationship between an individual and their environment Thirteen comparative pairings including Epictetus and mile Durkheim Zeno and Pierre Bourdieu and Marcus Aurelius and George Herbert Mead explore how to position individualism within our socialized existence Will Johncock believes that by integrating modern perspectives with ancient Stoic philosophies we can question how internally separate from our social

environment we ever are This tandem analysis identifies new orientations for established ideas in Stoicism and social theory about the mind being present self preservation knowledge travel climate change the body kinship gender education and emotions

From Logos to Trinity Marian Hillar,2012-01-30 This book presents a critical evaluation of the doctrine of the Trinity tracing its development and investigating the intellectual philosophical and theological background that shaped this influential doctrine of Christianity Despite the centrality of Trinitarian thought to Christianity and its importance as one of the fundamental tenets that differentiates Christianity from Judaism and Islam the doctrine is not fully formulated in the canon of Christian scriptural texts Instead it evolved through the conflation of selective pieces of scripture with the philosophical and religious ideas of ancient Hellenistic milieu Marian Hillar analyzes the development of Trinitarian thought during the formative years of Christianity from its roots in ancient Greek philosophical concepts and religious thinking in the Mediterranean region He identifies several important sources of Trinitarian thought heretofore largely ignored by scholars including the Greek middle Platonic philosophical writings of Numenius and Egyptian metaphysical writings and monuments representing divinity as a triune entity

At War with the 16th Irish Division, 1914-1918 J. H. M. Staniforth,2012-12-19 The letters of John Max Staniforth are among the most perceptive graphic and evocative personal records of a soldiers life to have come down to us from the Great War They cover his entire wartime career with the 16th Irish Division from his enlistment in 1914 till the armistice and they have never been published before From his first days in the army Staniforth wrote fluent descriptive weekly letters to his parents and in doing so he created a fascinating record of his experiences and those of the men around him When the division arrived on the Western Front in 1915 he related his impressions in detail and went on to give an unflinching account of the drama and the cruelty and the grueling routine of trench warfare After he was gassed in 1918 he wrote about his feelings and the treatment he received just as thoroughly as he did about every other aspect of the conflict A striking aspect of the letters is that Staniforth enlisted as a private soldier and went through the training of the ordinary recruit before rising through the ranks The letters also show how the Irish division was influenced by the turmoil of contemporary politics in Ireland

The Passionate Society Lisa Hill,2006-01-13 Adam Ferguson 1723 1816 was a major figure of the Scottish Enlightenment whose thought was in many respects original and distinctive This book is a study of his ideas and of the intellectual forces that shaped them Though somewhat overlooked in the nineteenth century Ferguson was rescued from obscurity in the first half of the twentieth century by scholars interested in the origins of sociology and early critiques of modernity Ferguson s interest in the mechanics of social life and especially social change led him to many groundbreaking insights In fact he is sometimes identified as the Father of Modern Sociology In addition to exploring whether or not he merits this title this study examines the whole of Ferguson s thought as a system and includes his moral and faculty psychology historiography theology politics and social science Ferguson is distinguished by his deep appreciation of the complexity of the human condition his study of society is based on the belief that it is not only reason but

the unseen unplanned sub rational and visceral forces that keep the human universe in motion Ferguson s appreciation of this fact and his ability to make social science of it is his major achievement A Little Eruption of Deity Emerson A. Essex,2002-12-01 Tapestry is a collection of short stories poetry and prose that illustrates one man s struggle to maintain his individuality and reconnect with his spirituality It transcends gender race etc Its barebones honesty and sensitivity make it inspiring and entertaining
