Memo September 2014 Paper 2 English:

New Paths to Public Histories Margot Finn, Kate Smith, 2015-09-17 *New Paths to Public Histories* challenges readers to consider historical research as a collaborative pursuit enacted across a range of individuals from different backgrounds and institutions. It argues that research communities can benefit from recognizing and strengthening the ways in which they work with others. Gothic Science Fiction S. MacArthur, 2015-05-25 *Gothic Science Fiction* explores the fascinating world of gothic influenced science fiction. From *Frankenstein* to *Doctor Who* and from H G Wells to Stephen King the book charts the rise of a genre and follows the descent into darkness that consumes it.

Media, Internet, and Social Movements in Hong Kong Carol P. Lai, Andrew Y. To, 2024-08-08 Focusing on the unique story of the recolonisation of Hong Kong since 1919 this book describes the environment of news gathering and publishing during this period and studies how this has connected to wider political economic and social changes. *Media Internet and Social Movements in Hong Kong* considers the operation of the news media in this divided region to illuminate the unparalleled experience of the transfer of sovereignty of the territory from a liberal democracy to a semi authoritarian regime. This book examines key aspects of news production that constrain media freedom in the Hong Kong Special Administrative Region HKSAR including the routines and concrete cases of censorship exercised by state authorities self censorship by news organisations and the roles of the Chinese and HKSAR governments as key sources of news. The authors also discuss the norms and values of journalists and citizens in Hong Kong as forces resisting control as well as the popular use of social media in mobilising anti government protests. This compelling text will be of interest to students and scholars in the fields of journalism media and area studies particularly those focusing on Greater China and the Asia Pacific region. Monthly Catalogue, United States Public Documents, 1986 **Engineering News and American Contract Journal**, 1899 Financing Failure Vern McKinley, 2012-01-10 During the recent financial crisis no issue has aroused more passion than financial institution bailouts. The standard rationale for the bailouts has been one of necessity and fear: federal regulatory agencies must have more authority in order to respond to the crisis or else the public will face terrible consequences. But does this rationale hold up to close inspection? In *Financing Failure* Vern McKinley approaches the topic by examining the policy decisions behind the bailouts and by showing their connection to previous government interventions. He brings under scrutiny the policy decisions made by the Treasury Department the Federal Reserve and the FDIC during the crisis of the 2000s and links them to policies that go back as far as the 1930s. This history of bailouts reveals that the genesis of financial crisis is government policy be it the mismanagement of monetary policy during the 1930s or the political push to expand homeownership that helped cause the 2000s crisis. The nation's federal financial regulators and the politicians claim to have saved the American economy. In truth they have done everything within their power to expand their own influence often far out of view from the public and media. Instead of openly explaining their actions the bailout agencies have

attempted to prevent the public from reviewing their decision making often at tremendous cost to taxpayers McKinley s painstakingly researched and clear headed analysis of bailouts and government intervention shows that the American public has accepted too many official pronouncements at face value and that reining in the federal regulators is a necessary step toward truly promoting the safety and soundness of the financial system **Catalogue of United States Public Documents** ,1903 **The Interpretation and Uniformity of the UNCITRAL Model Law on International Commercial Arbitration** Dean Lewis,2016-03-22 Numerous jurisdictions worldwide have augmented their ratification of the New York Convention of 1958 with the UNCITRAL Model Law 1985 UML which takes a giant step forward toward global uniformity in legal application and understanding of the arbitration process This book develops a standard or benchmark for the UML objective of uniformity using the relevant legislation and case law of Hong Kong Singapore and Australia to consider whether a uniform approach to implementation of the UML and its interpretation is being achieved across those jurisdictions The author s methodological tools are eminently adaptable to other jurisdictions Given the importance of the ability to set aside an arbitral award the body of case law on setting aside and the directly related area of enforcement the emphasis throughout is on Article 34 In addition the study considers the meaning of uniformity in law and in the context of the UML the correct approach to interpretation of the UML pre and post Article 2A the interpretational relationship between the UML and the Convention on Contracts for the International Sale of Goods CISG the relationship between the UML and the New York Convention the degree of textual uniformity of Article 34 with the three jurisdictions focused on and the degree of applied uniformity of Article 34 both in terms of juristic methodology and similarity of results The author with more than thirty years of practice in the field of commercial arbitration in Hong Kong has had access to voluminous cases spanning decades and brings his specialist expertise to the subject This book considers whether the UML has succeeded in its aim of achieving uniformity It serves as a guide both academic and practical to exploring and adopting the correct approach to the interpretation of the UML as well as to the method of classification of court decisions under the UML This study is of immeasurable academic and practical value **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1901
