Medicine Religion And Gender In Medieval Culture Gender In The Middle Ages:

Medicine, Religion and Gender in Medieval Culture Naoë Kukita Yoshikawa, 2015 An exploration of the relations between medical and religious discourse and practice in medieval culture focussing on how they are affected by gender *Gender in Medieval Culture* Michelle M. Sauer, 2015-09-24 Gender in Medieval Culture provides a detailed examination of medieval society's views on both gender and sexuality and shows how they are inextricably linked Sex roles were clearly defined in the medieval world although there were exceptions to the rules and this book examines both the commonplace world view and the exceptions to it The volume looks not only at the social and economic considerations of gender but also the religious and legal implications arguing that both ecclesiastical and secular laws governed behaviour The book covers key topics including femininity and masculinity and how medieval society constructed these terms sexuality and sex transgressive sexualities such as homosexuality adultery and chastity and the gendered body of Christ including the idea of Jesus as mother and affective spirituality Using a clear chapter structure for easy navigation and categorisation as well as a glossary of terms the book will be a vital resource for students of medieval history

Women and Devotional Literature in the Middle Ages Cate Gunn, Liz Herbert McAvoy, Naoë Kukita Yoshikawa, 2023 Essays on women and devotional literature in the Middle Ages in commemoration and celebration of the respected feminist scholar Catherine Innes Parker Silence was a much lauded concept in the Middle Ages particularly in the context of religious literature directed at women Based on the Pauline prescription that women should neither preach nor teach and should at all times keep speech to a minimum the concept of silence lay at the forefront of many devotional texts particularly those associated with various forms of women's religious enclosure Following the example of the Virgin Mary religious women were exhorted to speak seldom and then only seriously and devoutly However as this volume shows such gendered exhortations to silence were often more rhetorical than literal The contributions range widely they consider the English Wooming Group texts and female authored visionary writings from the Saxon nunnery of Helfth in the thirteenth century works by Richard Rolle and the Dutch mystic Jan van Ruusbroec in the fourteenth century Anglo French treatises and books housed in the library of the English noblewoman Cecily Neville in the fifteenth century and the resonant poetics of women from non Christian cultures But all demonstrate the ways in which silence rather than being a mere absence of speech frequently comprised a form of gendered articulation and proto feminist point of resistance They thus provide an apt commemoration and celebration of the deeply innovative work of Catherine Innes Parker 1956 2019 the respected feminist scholar and a pioneer of this important field of study

Women's Literary Cultures in the Global Middle Ages Kathryn Loveridge, Liz Herbert McAvoy, Sue Niebrzydowski, Vicki Kay Price, 2023 Initiates a wider development of inquiries into women's literary cultures to move the reader beyond single geographical linguistic cultural and period boundaries Since the closing decades of the twentieth century medieval women's writing has been the subject of energetic conversation and debate This interest however has focused predominantly on western

European writers working within the Christian tradition the Saxon visionaries Mechthild of Hackeborn Mechthild of Magdeburg Gertrude the Great for example and in England Julian of Norwich and Margery Kempe are cases in point While this present book acknowledges the huge importance of such writers to women's literary history it also argues that they should no longer be read solely within a local context Instead by putting them into conversation with other literary women and their cultures from wider geographical regions and global cultures women from eastern Europe and their books dramas and music the Welsh gwraig llwyn a pherth woman of bush and brake the Indian mystic Mirabai Japanese women writers from the Heian period women saints from across Christian Europe and those of eleventh century Islam or late medieval Ethiopia for instance much more is to be gained in terms of our understanding of the drivers behind and expressions of medieval women's literary activities in far broader contexts This volume considers the dialogue synergies contracts and resonances emerging from such new alignments and to help a wider multidirectional development of this enquiry into women's literary cultures

Women in Christianity in the Medieval Age Laura Kalas, Roberta Magnani, 2024-12-10 This volume offers a comprehensive introduction to and investigation of the multivocality of women's experience in the Middle Ages In medieval Europe women saw their role in the Christian Church and society progressively confined to conflicting models of femininity epitomised by the dichotomy of Eve Mary Classical views of gender predicated on misogynistic dichotomies which confined women to matter and the corruption of the flesh were consolidated in powerful male dominated clerical institutions and widely disseminated Towards the end of the Middle Ages however women's corporeality and somatic spirituality contributed to and influenced burgeoning modes of piety centred around the cult of the Virgin Mary and the veneration of the suffering body of Christ on the Cross This shift in devotional practices afforded women as bodily beings the space for an increased level of self expression self realisation and authority Ranging from philosophical and theological enquiry to education and art as well as medical sciences and popular beliefs the essays in this collection account for the complexities and richness of the conceptualisations and lived experiences of medieval Christian women The book will be especially relevant to students and scholars of religion and history with an interest in medieval studies and gender Whilst expounding the key strands of thinking in the field it engages with and contributes to some of the latest scholarly research

Disability and Sanctity in the Middle Ages Stephanie Grace-Petinos, Leah Parker, Alicia Spencer-Hall, 2025-10-01 This volume significantly expands current understandings of both disability and sanctity in the Middle Ages Across the collection heterogeneous constructions and experiences of disability and holiness are excavated Analyses span the sixth to the fifteenth century with discussion of holy men and holy women Western Christian and Buddhist traditions hagiographic texts images and artefacts Each chapter underscores that disability and sanctity co exist with a vast array of connotations not just fully positive or fully negative but also every inflection in between The collection is a powerful rebuttal to the notion of the integral relationship of disability medieval and otherwise with sin stigma and shame So doing it recentres medieval disability history

as a lived history that merits exploration and celebration In this way the volume serves to reclaim sanctity in disability histories as a means to affirm the possibility of radical disability futures

Christ the Physician in Late-Medieval Religious Controversy Patrick Outhwaite, 2024 A consideration of the allegory of Christ the Divine Physician in medical and religious writings Discourses of physical and spiritual health were intricately entwined in the Middle Ages shaping intellectual concepts as well as actual treatment The allegory of Christ as Divine Physician is an example of this intersection it appears frequently in both medical and religious writings as a powerful figure of healing and salvation and was invoked by dissidents and reformists in religious controversies Drawing on previously unexplored manuscript material this book examines the use of the Christus Medicus tradition during a period of religious turbulence Via an interdisciplinary analysis of literature sermons and medical texts it shows that Wycliffites in England and Hussites in Bohemia used concepts developed in hospital settings to press for increased lay access to Scripture and the sacraments against the strictures of the Church hierarchy Tracing a story of reform and controversy from localised institutional contexts to two of the most important pan European councils of the fifteenth century Constance and Basel it argues that at a point when the body of the Church was strained by multiple popes heretics and schismatics the allegory came into increasing use to restore health and order

Addressing Women in Early Medieval Religious Texts Kathryn Maude, 2021 An investigation into texts specifically addressed to women sheds new light on female literary cultures From the tenth to the twelfth centuries in England and Scotland we have scant evidence of women s writing How then can we access these women s experiences This book argues that by analysing texts deliberately written for and addressed directly to women we gain an insight into the horizons of possibility for their lives It examines religious texts addressed to women bringing together works that are more widely studied with others that are less well known and demonstrates continuities across Old English and Latin texts written for female readers and patrons across the Conquest period Case studies ranging from lfric s sermons to Aelred s De institutione inclusarum from the Life of Christina of Markyate to Goscelin s saints lives for Wilton and Barking Abbeys attend to the intimate scripts women were encouraged to inhabit through a close focus on the form of the textual address By concentrating on address the book illuminates how women were encouraged to live and by following women s commissioning and copying of texts it demonstrates which of these textual addresses women valued and attempted to follow n address the book illuminates how women were encouraged to live and by following women s commissioning and copying of texts it demonstrates which of these textual addresses women valued and

attempted to follow n address the book illuminates how women were encouraged to live and by following women s commissioning and copying of texts it demonstrates which of these textual addresses women valued and attempted to follow n address the book illuminates how women were encouraged to live and by following women s commissioning and copying of texts it demonstrates which of these textual addresses women valued and attempted to follow Female Devotion and Textile Imagery in Medieval English Literature Anna McKay,2024 Uncovers the female voices lived experiences and spiritual insights encoded by the imagery of textiles in the Middle Ages For millennia women have spoken and read through cloth The literature and art of the Middle Ages are replete with images of women working cloth wielding spindles distaffs and needles or sitting at their looms Yet they have been little explored Drawing upon the burgeoning field of medieval textile studies as well as contemporary theories of gender materiality and eco criticism this study illustrates how textiles provide a hermeneutical alternative to the patriarchally dominated written word It puts forward the argument that women s devotion during this period was a fabricated phenomenon a mode of spirituality and religious exegesis expressed devised and practised through cloth Centred on four icons of female devotion Eve Mary St Veronica and of course Christ the book explores a broad range of narratives from across the rich tapestry of medieval English literature from the fields of Piers Plowman to the late medieval Morte D arthur the devotions of Margery Kempe to the visionary experiences of Julian of Norwich Gervase of Tilbury s fabulous Otia Imperialia to the anchoritic guidance literature of the Middle Ages and the innumerable and oft forgotten lives of Christ prayers legends and miracle tales in between
