Medicine Magic And Religion Routledge Classics:

Medicine, Magic, and Religion William Halse Rivers, 2001 One of the most fascinating men of his generation W H R Rivers was a British doctor and psychiatrist as well as a leading ethnologist Immortalized as the hero of Pat Barker's award winning Regeneration trilogy Rivers was the clinician who in the First World War cared for the poet Siegfried Sassoon and other infantry officers injured on the western front His researches into the borders of psychiatry medicine and religion made him a prominent member of the British intelligentsia of the time a friend of H G Wells George Bernard Shaw and Bertrand Russell Part of his appeal lay in an extraordinary intellect mixed with a very real interest in his fellow man **Medicine Magic and Religion** is a prime example of this A social institution it is one of Rivers's finest works In it Rivers introduced the then revolutionary idea that indigenous practices are indeed rational when viewed in terms of religious beliefs **Purity and Danger** Mary Douglas, 2002 Professor Douglas writes gracefully lucidly and polemically She continually makes points which illuminate matters in the philosophy of religion and the philosophy of science and help to show the rest of us just why and how anthropology has become a fundamentally intellectual discipline New Society Professor Douglas's book sparkles with intellectual life and is characterised by a concern to understand Right or wrong sound or idiosyncratic it presents a rare and exciting spectacle of a mind at work Times Literary Supplement **Postpsychiatry** Patrick J. Bracken, Philip Thomas, 2005-12-22 For most of us the words madness and psychosis conjure up fear and images of violence Using short stories the authors consider complex philosophical issues from a fresh perspective The current debates about mental health policy and practice are placed into their historical and cultural contexts **Medicine, Magic, and Religion** W. H. R. Rivers, 1999 First Published in 1999 Routledge is an imprint of Taylor Francis an informal company **Disability and the Way of Jesus** Bethany McKinney Fox, 2019-05-28 What does healing mean for people with disabilities Bridging biblical studies ethics and disability studies with the work of practitioners Bethany McKinney Fox examines healing narratives in their biblical and cultural contexts This theologically grounded and winsomely practical resource helps us more fully understand what Jesus does as he heals and how he points the way for relationships with people with disabilities **Coming of Age** Deborah Beatriz Blum, 2017-07-11 The startling coming of age story of famed anthropologist Margaret Mead whose radical ideas challenged the social and sexual norms of her time The story begins in 1923 when twenty-two year old Margaret Mead is living in New York City engaged to her childhood sweetheart and on the verge of graduating from college Seemingly a conventional young lady she marries but shocks friends when she decides to keep her maiden name After starting graduate school at Columbia University she does the unthinkable she first enters into a forbidden relationship with a female colleague then gets caught up in an all-consuming and secret affair with a brilliant older man As her sexual awakening continues she discovers it is possible to be in love with more than one person at the same time While Margaret's personal explorations are just beginning her interest in distant cultures propels her into the new field of anthropology Ignoring the constraints put on

women she travels alone to a tiny speck of land in the South Pacific called Samoa to study the sexual behavior of adolescent girls. Returning home on an ocean liner nine months later a chance encounter changes the course of her life forever. Now drawing on letters, diaries and memoirs Deborah Beatriz Blum reconstructs these five transformative years of Margaret Mead's life before she became famous, revealing the story that she hid from the world during her lifetime and beyond.

Introducing Anthropology of Religion Jack David Eller, 2021-12-27 This clear and engaging guide introduces students to key areas of the field and shows how to apply an anthropological approach to the study of religion in the contemporary world. Written by an experienced teacher it covers major traditional topics including definitions, theories and beliefs as well as symbols, myth and ritual. The book also explores important but often overlooked issues such as morality, violence, fundamentalism, secularization and new religious movements. The chapters all contain lively case studies of religions practiced around the world. The third edition of *Introducing Anthropology of Religion* is fully updated and contains additional content on material religion, visual religion and affect theory and a new chapter takes a closer look at medical and health topics. The author encourages the reader to engage throughout with the unifying themes of race, gender and power and how these themes are intertwined with anthropology of religion. Images, a glossary and questions for discussion are included and additional resources are provided via a companion website.

Levende-doden Yvon van der Pijl, 2007 Etnografische beschrijving en interpretatie van het rituele proces dat start aan het sterfbed in de hedendaagse Afrikaanse Surinaamse doodscultuur.

The Need for Roots Simone Weil, 2003-09-02 Hailed by Andre Gide as the patron saint of all outsiders, Simone Weil's short life was ample testimony to her beliefs. In 1942 she fled France along with her family, going firstly to America. She then moved back to London in order to work with de Gaulle. Published posthumously, *The Need for Roots* was a direct result of this collaboration. Its purpose was to help rebuild France after the war. In this her most famous book Weil reflects on the importance of religious and political social structures in the life of the individual. She wrote that one of the basic obligations we have as human beings is to not let another suffer from hunger. Equally as important however is our duty towards our community: we may have declared various human rights but we have overlooked the obligations and this has left us self-righteous and rootless. She could easily have been issuing a direct warning to us today: the citizens of Century 21.

An Anthropology of Biomedicine Margaret M. Lock, Vinh-Kim Nguyen, 2018-01-09 In this fully revised and updated second edition of *An Anthropology of Biomedicine* authors Lock and Nguyen introduce biomedicine from an anthropological perspective, exploring the entanglement of material bodies with history, environment, culture and politics. Drawing on historical and ethnographic work, the book critiques the assumption made by the biological sciences of a universal human body that can be uniformly standardized. It focuses on the ways in which the application of biomedical technologies brings about radical changes to societies at large, based on socioeconomic inequalities and ethical disputes, and develops and integrates the theory that the human body in health and illness is not an ontological given but a moveable, malleable entity.

This second edition includes new chapters on microbiology and the microbiome global health and the self as a socio technical system In addition all chapters have been comprehensively revised to take account of developments from within this fast paced field in the intervening years between publications References and figures have also been updated throughout This highly regarded and award winning textbook Winner of the 2010 Prose Award for Archaeology and Anthropology retains the character and features of the previous edition Its coverage remains broad including discussion of biomedical technologies in practice anthropologies of medicine biology and human experiments infertility and assisted reproduction genomics epigenomics and uncertain futures and molecularizing racial difference ensuring it remains the essential text for students of anthropology medical anthropology as well as public and global health
