

A stylized, high-contrast illustration of René Descartes. He is depicted from the chest up, with long dark hair and a mustache. His face is rendered in a reddish-orange hue, while his hands and the book he is holding are also in this color. He is resting his chin on his right hand, looking thoughtfully towards the viewer. The background is a deep blue with a white floral pattern on the right side. The overall style is reminiscent of a woodcut or a graphic print.

Descartes: Meditations on First Philosophy René Descartes, 2017-02-16 This is an updated edition of John Cottingham's acclaimed translation of Descartes's philosophical masterpiece including an abridgement of Descartes's *Objections and Replies*

Meditations on First Philosophy René Descartes, 2008-05-08 It is some years now since I realized how many false opinions I had accepted as true from childhood onwards I saw that at some stage in my life the whole structure would have to be utterly demolished In Descartes's *Meditations* one of the key texts of Western philosophy the thinker rejects all his former beliefs in the quest for new certainties Discovering his own existence as a thinking entity in the very exercise of doubt he goes on to prove the existence of God who guarantees his clear and distinct ideas as a means of access to the truth He develops new conceptions of body and mind capable of serving as foundations for the new science of nature Subsequent philosophy has grappled with Descartes's legacy questioning many of its conclusions and even his basic approach but his arguments set the agenda for many of the greatest philosophical thinkers and their fascination endures This new translation includes the Third and Fourth *Objections and Replies* in full and a selection from the rest of these exchanges with Descartes's contemporaries that helped to expound his philosophy
