Meetings With Remarkable Trees:

Meetings With Remarkable Trees Thomas Pakenham, 2019-12-05 Thomas Pakenham's beautifully illustrated bestselling book of tree portraits. With this astonishing collection Thomas Pakenham produced a new kind of tree book. The arrangement owes little to conventional botany. The sixty trees are grouped according to their own strong personalities: Natives, Travellers, Shrines, Fantasies, and Survivors. From the ancient native trees, many of which are huge and immeasurably old, to the exotic newcomers from Europe, the East, and North America, MEETINGS WITH REMARKABLE TREES captures the history and beauty of these entrancing living structures. Common to all these trees is their power to inspire awe and wonder. This is a lovingly researched book, beautifully illustrated with colour photographs, engravings, and maps, a moving testimonial to the Earth's largest and oldest living structures. *Meetings with Remarkable Trees*, 2005 *Meetings with Remarkable Trees ; Remarkable Trees of the World* Thomas Pakenham, 2003 *Meetings with Remarkable Trees ; Remarkable Trees of the World* Thomas Pakenham, 2003 **Sylvan Cities** Helen Babbs, 2019-05-02 Sylvan City is a potted journey through our cities' woody places and a literary hunt for where their wild things are. Reviews for Sylvan Cities: Clever, pretty, fun, and informative. What more can a reader ask for? Sara Maitland, author of *Gossip*. From the Forest: Full of gems, a manifesto for green cities. Babbs will turn us all into urban rangers, an unquiet army of neighbourhood watchers. Max Adams, author of *Wisdom of Trees*. An intricately illustrated journey into the urban forest. Sylvan City is both a practical guide to identifying twenty of the most common trees standing sentry on our street corners and a lyrical anecdotal treasure trove of facts and history, culture, and leafy lore. It's certainly possible to appreciate a tree for its beauty, its shade, and its shelter without knowing whether it's an alder, an elder, a lime, or a beech. But look harder, and we begin to see the beauty beneath the bark: the tales of how trees are integral to medicine and art, as they are furniture and firewood; the stories of why wild figs grow on the banks of Sheffield's rivers and why the ash tree is touched with magic and mischief. *Multifunctional Land Use* Ülo Mander, Hubert Wiggering, Katharina Helming, 2007-05-11 Global change, land use policies, and EU enlargement affect the driving forces for landscape functioning, land use management, and rural development. New demands on landscapes and natural resources call for multifunctional approaches to land development. Tools are required to: i) identify the effects of land management on landscape sustainability; ii) support the decision-making process on the multipurpose utilisation of landscape resources. Scientists from across Europe installed the Landscape Tomorrow network to be prepared for new challenges of research on sustainable land development in a European perspective. In this publication they: i) analyse general principles of land use multifunctionality; ii) highlight the specific requirements and approaches of implementing multifunctional land use from different disciplinary viewpoints; iii) report on success stories of multifunctional land use from different geographic and political settings; and iv) discuss modelling and monitoring approaches to scientifically assess the impact of multifunctional land use implementation. The book contributes to the scientific basis for future land development strategies and helps
