Problems In Contract Law Cases And Materials:

Problems in Contract Law Charles L. Knapp, Nathan M. Crystal, Harry G. Prince, 1999 PROBLEMS IN CONTRACT LAW Cases and Materials has always been a favorite of first time Contracts teachers. By combining contemporary theory and problems with more traditional cases and notes, this successful casebook has become the choice of a wide range of professors. This eagerly awaited revision introduces new co-author H. G. Prince and a host of new material while it retains the intellectual integrity of previous editions. This extremely teachable casebook draws praise for its exceptionally engaging problems that mesh with cases, notes, and questions to hold student interest; integration of contemporary contract theory such as feminist law and economics; and other viewpoints. Balanced structure and organization that allows the book to be comprehensive without overwhelming students. Companion Rules Supplement, outstanding Teacher's Manual with sample syllabi, teaching points keyed to specific pages, answers to many of the problems and questions keyed to case summaries. To keep the book fresh and current, this Fourth Edition features updated problems, cases, and references; expanded coverage of promissory estoppel; greater discussion of Alternative Dispute Resolution as it relates to contract law. For your next Contracts course, consider the book that is firmly positioned where scholarship meets practice. PROBLEMS IN CONTRACT LAW Cases and Materials Fourth Edition *Problems in Contract Law* Knapp, Nathan M. Crystal, Harry G. Prince, 2003-01-08 **PROBLEMS IN CONTRACT LAW** CHARLES L. KNAPP, 2025 **Notes for Teachers Using Problems in Contract Law** Charles L. Knapp, 1977 **Problems in Contract Law** Charles L. Knapp, 2012 In *Problems in Contract Law Cases and Materials* Ninth Edition by Charles L. Knapp, Nathan M. Crystal, and Harry G. Prince, a balance of traditional and contemporary cases reflects the development and complexity of contract law. Explanatory notes and text place classic and contemporary cases in their larger legal context, while questions and problem exercises bridge theory and practice. This successful book includes various perspectives and contractual settings and offers a highly intelligent contemporary treatment of contract law. It can easily be used in teaching by traditional case analysis, through problem-based instruction, or using theoretical inquiry. New to the Ninth Edition: Seven new cases that reflect advances in or improved statements of contract law. Two restored cases: *Kirksey v. Kirksey* and *Hill v. Jones*, that provide valuable perspectives on fundamental areas of contract law. Eight new problems, including seven net additions and one replacement, to provide more review options for students and to add contemporary fact patterns. A new two-color design featuring interesting photographs illustrating people and places discussed in some of the cases. Editing of note and text material to reduce length without affecting coverage. Reorganization of text and comment material to focus comments primarily on historical developments, allowing professors flexibility in assigning or deleting comments. Student accessibility to deleted cases from prior editions through Connected Casebook, allowing professors the further flexibility of continuing to easily assign cases for which they have a particular preference. Professors and students will benefit from a mixture of classic and contemporary cases. The authors' emphasis on accessibility of the material, rejecting a

hide the ball approach Review questions at the end of each chapter that are primarily designed for students to perform self assessments of their grasp of the material Answers with explanations are included in an appendix within the book
