Return To Magonia Investigating Ufos In History:

Return to Magonia: Investigating UFOs in History Chris Aubeck, Martin Shough, 2016-08-01 THE HIDDEN HISTORY OF UFOs People have always been fascinated by lights in the sky Early astronomers and astrologers medieval pamphleteers scientists navigators and weather observers all recorded sightings of strange phenomena The question is Were these the same as our modern UFOs The authors of Return to Magonia have taken a serious critical look at some of those sightings Using modern resources and tools they dissect more than 20 fascinating cases from the last 500 years showing that reality can be more interesting than any popular catch all theory They discover that UFOs in history are as intriguing as entertaining and often as baffling as they are today In this unique and challenging book you will read about the flat plate seen over a 17th century Swedish city leaving witnesses stricken with an unknown sickness a fiery object that landed beside a road in Ohio piloted by a mysterious man in black a weird blue ball of fire that devastated a British navy ship the Minnesota doctor who saw a disk of electric light floating across the fields and a formation of locomotive sized eggs that descended on an Australian town shortly after World War II Combining science history and a broad knowledge of the UFO field Martin Shough and Chris Aubeck set a new standard for UFO research and shed light on one of the oldest recorded mysteries in human experience CHRIS AUBECK is the founder of the historical research group Magonia Exchange an international archival project and the co author with Jacques Vallee of Wonders in the Sky MARTIN SHOUGH is a Research Associate for National Aviation Reporting Center on Anomalous Phenomena NARCAP

De tijd, de waarheid en de geschiedenis Piet de Rooy, 2025-05-20 Vanaf de vroegste tijden proberen mensen te begrijpen hoe hun wereld in elkaar steekt Ze ervaren de werkelijkheid in het verloop van de tijd in de afwisseling van dag en nacht in de opeenvolging van de seizoenen Maar toch is er steeds het vermoeden dat dit niet alles is dat er achter die werkelijkheid een diepere waarheid verborgen ligt En vervolgens gaan we daarnaar op zoek we bedrijven historie zoals de vader van de geschiedschrijving Herodotus het noemde Geïnspireerd door een schilderij van Francisco Goya is dit boek een zinderende zoektocht naar deze drie pijlers onder de interpretatie van onze wereld Hoe we de tijd onderwierpen aan klok en kalender om daar vervolgens onszelf aan te onderwerpen Hoe we eeuwenlang de Bijbel als de ultieme waarheid beschouwden met kettervervolgning en heksenwaan als schaduwzijden daarvan Hoe we ons van de Bijbelse waarheid hebben losgemaakt en de vrijheid gebruikten om nieuwe verhalen te maken over complotten bijvoorbeeld en over spirituele krachten En ten slotte is er de geschiedenis waarin we onze collectieve herinneringen vastleggen maar ook bepalen wat we beter kunnen vergeten Gesteund door inzichten uit de evolutietheorie en de neuropsychologie wordt in De tijd de waarheid en de geschiedenis een kleurrijk panorama gepresenteerd met tal van wonderlijke anekdotes en merkwaardige inzichten

The Myth and Mystery of UFOs Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O'Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at

the Chicago Tribune's website it was clear that such unexplained objects continued to occupy the minds of fascinated readers. Why wonders Thomas Bullard don't such persistent sightings command more urgent attention from scientists, scholars, and mainstream journalists? The answer in part lies in Bullard's wide-ranging magisterial survey of the mysterious, frustrating, and ever-evolving phenomenon that refuses to go away and our collective efforts to understand it. In his trailblazing book, Bullard views those efforts through the lens of mythmaking, discovering what UFO accounts tell us about ourselves, our beliefs, and the possibility of visitors from beyond. Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien, and how it views relentless official denial as a part of conspiracy to hide the truth. He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes, and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos. Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions, magically advanced technologies, governmental conspiracies, varieties of religious salvation, apocalyptic fears, and other paranormal experiences. Along the way, Bullard investigates how UFOs have inspired books, movies, and television series, blurred the boundaries between science, science fiction, and religion, and crowded the Internet with websites and discussion groups. From the patches of this crazy quilt, he posits evidence that a genuine phenomenon seems to exist outside the myth. Enormously erudite and endlessly engaging, Bullard's study is a sky watcher's guide to the studies, stories, and debates that this elusive subject has inspired. It shows that despite all the competing interests and errors clouding the subject, there is substance beneath the clutter, a genuinely mysterious phenomenon that deserves attention as more than a myth.

Mysterious Beauty Dr CS Matthews, 2019-09-25

Mysterious Beauty Living with the Paranormal in the Hudson Valley begins by providing a brief but thorough survey of the unique natural and cultural history of paranormal experience in the Hudson Valley region, including Native and early colonial reports. It then profiles select individuals whose lives have been touched by the paranormal, either as experiencers, investigators, or both. This isn't a book for tourists or a field guide, but rather a detailed survey of individuals who, by virtue of their history and place, have become accustomed to living with extraordinary experiences and/or encounters with the paranormal. From ghosts to aliens, Bigfoot to ancient ceremonial sites, time displacements, and spiritual visions, the testimony of witnesses and investigators speaks of mysteries encountered in the legendary, wondrous, beautiful landscapes of the Hudson Valley in New York.

The Mammoth Book of UFOs Lynn Picknett, 2012-03-01 The ultimate guide to the history, background, and meaning of whether UFOs really exist, plus associated phenomena such as alien abduction, crop circles, and cattle mutilations. There is also a comprehensive overview of the many conspiracy theories which surround UFOs and abductions, from the craft as secret Nazi technology to weird CIA plots. Written by a ufologist with many years in the field, this exciting and highly provocative book at times reads like a thriller. What messages do UFOs hold for us and for the future of

life on earth Alien Dawn: An Investigation into the Contact Experience Colin Wilson, 2012-02-29 Alien Dawn is the most comprehensive bird's eye view of the subject ever undertaken and the conclusions Wilson draws are of overwhelming significance to us all. Here Wilson describes what he found as he set out to piece together this vast complex jigsaw puzzle whose components include poltergeists, lake monsters, ancient folklore, time slips, out of body experiences, mystical awareness and psychic travel to other worlds as well as allegations of worldwide government cover ups **UFOs and Government**

Michael D. Swords, 2012 Governments around the world have had to deal with the UFO phenomenon for a good part of a century. How and why they did so is the subject of *UFOs and Government*, a history that for the first time tells the story from the perspective of the governments themselves. It's a perspective that reveals a great deal about what we citizens have seen and puzzled over from the outside for so many years. The story, which is unmasked by the governments' own documents, explains much that is new or at least not commonly known about the seriousness with which the military and intelligence communities approached the UFO problem internally. Those approaches were not taken lightly. In fact, they were considered matters of national security. At the same time, the story reveals how a subject with such apparent depth of experience and interest became treated as if it were a triviality. And it explains why one government, the United States government, deemed it wise and perhaps even necessary to treat it so. Though the book focuses primarily on the U.S. government's response to the UFO phenomenon, also included is the treatment of the subject by the governments of Sweden, Australia, France, Spain, and other countries. This large format, fully illustrated book is the result of a team effort that called itself The UFO History Group, a collection of veteran UFO historians and researchers who spent more than four years researching, consulting, writing, and editing to present a work of historical scholarship on government response to the UFO phenomenon. Michael Swords was the primary author of the United States chapters. The work was coordinated and edited by Robert Powell. Clas Svahn, Juan Ballester Olmos, Bill Chalker, and Robert Powell contributed country chapters. Jan Aldrich was the primary content consultant, with additional content consultation and writing coming from Barry Greenwood and Richard Thieme. Steve Purcell was the primary photo illustration editor. From the foreword by Jerome Clark. While *UFOs and Government* revisits an often unhappy history, the reading of it is far from an unhappy experience. The authors' eloquent, intelligent, sophisticated, and conscientious provide us with the first credible, comprehensive overview of official UFO history in many years. Most of the current volume deals with U.S. military and intelligence responses to the UFO phenomenon, but it also features richly informative chapters that expand the story across the international arena. If you're looking for an example of a nation that dealt productively with the UFO reports that came its official way, you will take heart in the chapter on the French projects. From here on, every responsible treatment of UFOs and government will have to cite *UFOs and Government* prominently among its sources. This is the real story as accurately as it can be reconstructed in the second decade of the new century. I expect to keep my copy close at hand and to return to it often. While it cannot be said of many books, UFO-themed or otherwise, this is among the

essential ones Stray from it at your peril The Facade: Special Edition , **Intimate Alien** David J. Halperin,2020-03-24
A voyage of exploration to the outer reaches of our inner lives UFOs are a myth says David J Halperin but myths are real The power and fascination of the UFO has nothing to do with space travel or life on other planets It s about us our longings and terrors and especially the greatest terror of all the end of our existence This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals as a culture and as a species In the 1960s Halperin was a teenage UFOlogist convinced that flying saucers were real and that it was his life s mission to solve their mystery He would become a professor of religious studies with traditions of heavenly journeys his specialty With Intimate Alien he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions believers and deniers alike From the prehistoric Balkans to the deserts of New Mexico from the biblical visions of Ezekiel to modern abduction encounters Intimate Alien traces the hidden story of the UFO It s a human story from beginning to end no less mysterious and fantastic for its earthliness A collective cultural dream UFOs transport us to the outer limits of that most alien yet intimate frontier our own inner space **The UFO Chronicles** John Michael Greer,2020-10-31 Beyond the familiar opposition between those who believe that UFOs are spacecraft from other planets and those who believe UFOs do not exist at all lies a landscape of stranger and more rewarding topics This new edition of The UFO Phenomenon is a discovery of the nature of apparitions the history of secret American aerospace technologies the mythology of progress and the role of popular culture in defining experienced reality
