Revolt Against The Modern World:

Revolt Against the Modern World Julius Evola, 2018-07-13 With unflinching gaze and uncompromising intensity Julius Evola analyzes the spiritual and cultural malaise at the heart of Western civilization and all that passes for progress in the modern world As a gadfly Evola spares no one and nothing in his survey of what we have lost and where we are headed At turns prophetic and provocative *Revolt against the Modern World* outlines a profound metaphysics of history and demonstrates how and why we have lost contact with the transcendent dimension of being The revolt advocated by Evola does not resemble the familiar protests of either liberals or conservatives His criticisms are not limited to exposing the mindless nature of consumerism the march of progress the rise of technocracy or the dominance of unalloyed individualism although these and other subjects come under his scrutiny Rather he attempts to trace in space and time the remote causes and processes that have exercised corrosive influence on what he considers to be the higher values ideals beliefs and codes of conduct the world of Tradition that are at the foundation of Western civilization and described in the myths and sacred literature of the Indo Europeans Agreeing with the Hindu philosophers that history is the movement of huge cycles and that we are now in the Kali Yuga the age of dissolution and decadence Evola finds revolt to be the only logical response for those who oppose the materialism and ritualized meaninglessness of life in the twentieth century Through a sweeping study of the structures myths beliefs and spiritual traditions of the major Western civilizations the author compares the characteristics of the modern world with those of traditional societies The domains explored include politics law the rise and fall of empires the history of the Church the doctrine of the two natures life and death social institutions and the caste system the limits of racial theories capitalism and communism relations between the sexes and the meaning of warriorhood At every turn Evola challenges the reader's most cherished assumptions about fundamental aspects of modern life A controversial scholar philosopher and social thinker JULIUS EVOLA 1898 1974 has only recently become known to more than a handful of English speaking readers An authority on the world's esoteric traditions Evola wrote extensively on ancient civilizations and the world of Tradition in both East and West Other books by Evola published by Inner Traditions include *Eros and the Mysteries of Love* *The Yoga of Power* *The Hermetic Tradition* and *The Doctrine of Awakening*

Aristocratic Voices Richard Avramenko, Ethan Alexander-Davey, 2024-12-15 In the 21st century political debates appear to center on fundamental conflicts between the people and elites Most of these discussions emphasize strategies to protect and empower the oppressed masses against a predatory ruling class Much of classical political thought however was written from an aristocratic point of view that is it ascribed paramount importance to the question of elite formation Assuming inequality as a permanent feature of human associations what virtues would elites need to have what institutions and traditions would cultivate the best qualities in members of the ruling class and curb their extravagances *Aristocratic Voices* *Forgotten Arguments about Virtue Authority and Inequality* consists of essays by political theorists who explore these questions in the

works of aristocratic thinkers both ancient and modern The volume includes analyses of aristocratic virtues interpretations of aristocratic assemblies and constitutions both historic and contemporary as well as critiques of liberal virtues and institutions Essays on Plutarch Nicholas of Cusa Marsilius of Padua Sir Thomas Elyot John Henry Newman Wilhelm Heinrich Riehl Henry Adams Friedrich Nietzsche Irving Babbitt Oswald Spengler Julius Evola and Robert Nisbet explore ways of preserving and adapting the valuable aspects of the aristocratic ethos to the needs of modern societies **Black Sun** Nicholas Goodrick-Clarke,2001-08-01 A comprehensive and revealing study of the mindset and motives that drive far right extremists in the post World War II West **Black Sun** examines the new neofascist ideology showing how hate groups militias and conspiracy cults gain influence Based on interviews and extensive research into underground groups the book documents new Nazi and fascist sects that have sprung up from the 1970s to the 1990s and examines the mentality and motivation of these far right extremists The result is a detailed grounded portrait of the mythical and devotional aspects of Hitler cults among Aryan mystics racist skinheads and Nazi satanists and disciples of heavy metal music and occult literature **The Simple Life of René Guénon** Paul Chacornac,2005-05 René Guénon 1886 1951 is undoubtedly one of the luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of recent philosophies His oeuvre of 26 volumes is providential for the modern seeker pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents at the same time it directs the reader to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization The present volume first published in 1958 by Guénon's friend and collaborator Paul Chacornac whose bookstore journal first called *Le Voile d'Isis* later changed to *tudes Traditionnelles* and publishing venture *ditions Traditionnelles* were so instrumental in furthering Guénon's work was the first full length biography of this extraordinary man to appear and has served as the foundation for the many later biographies that have appeared in French as well as the lone biography in English *René Guénon and the Future of the West* by Robin Waterfield Its translation and publication in conjunction with *The Collected Works of René Guénon* represents an important step in the effort to bring Guénon's oeuvre before a wider public **The Path of Cinnabar** Julius Evola,2009 Julius Evola was a renowned Dadaist artist Idealist philosopher critic of politics and Fascism mystic anti modernist and scholar of world religions Evola was all of these things but he saw each of them as no more than stops along the path to life's true goal the realisation of oneself as a truly absolute and free individual living one's life in accordance with the eternal doctrines of the Primordial Tradition Much more than an autobiography *The Cinnabar Path* in describing the course of Evola's life illuminates how the traditionally oriented individual might avoid the many pitfalls awaiting him in the modern world More a record of Evola's thought process than a recitation of biographical facts one will here find the distilled essence of a lifetime spent in

pursuit of wisdom in what is surely one of his most important works **Magic and Mysticism** Arthur Versluis,2007-05-22 Magic and Mysticism An Introduction to Western Esoteric Traditions is a concise overview from antiquity to the present of all the major Western religious esoteric movements Topics covered include alchemy Gnosticism Hermeticism Rosicrucianism Theosophy and many more Magic and Mysticism is ideal for students of Mysticism and New Religious Movements as well as for general readers of Metaphysics and Esoterica **The Philosophical Foundation of Alt-Right Politics and Ressentiment** William Remley,2019-10-04 Since its inception America has laid claim to a liberal democratic style of government with various well known philosophical tenets Yet the underlying beliefs or political philosophy of one of the movements that opposes liberal democratic forms of government the alt right are relatively unknown The Philosophical Foundation of Alt Right Politics and Ressentiment is a timely book that analyses how the principles of current American politics have developed William Remley asserts that the philosophy of Traditionalism is central to the alt right s understanding of itself and explores the perceived threat to social status that seems to have propelled the movement to its prominent place in American politics Remley uses Social Dominance Theory and the philosophical work of Jean Paul Sartre and Friedrich Nietzsche to look at how group formation and hierarchies have given rise to authoritarian leadership and how a tendency that can be best described and explained through Nietzsche s concept of ressentiment led to the anti foreign sentiment that rules American politics today *The Prophets of Doom* Neema Parvini,2023-07-27 Linear and progressive views of history have dominated the popular imagination for the past seventy years in a worldview wedded to the inexorable rise of globalisation and GDP growth at any cost However the end of the Cold War failed to produce the end of history as hoped a fact brought home to many by Russia s invasion of Ukraine in 2022 Material wealth and Progress in the name of social justice have not made people happier or more united but quite the opposite Anxiety depression fearfulness sadness loneliness and anger have all massively increased since 1970 with the male suicide rate at an all time high Western society seems to be divided against itself across every line conceivable left versus right women versus men non whites versus whites globalists versus populists the elites versus the people people who think that men can be women and vice versa versus those who insist that they cannot and so on Seventy three percent of Americans believe their country is on the wrong track with similar views reflected in Britain and across Europe The Prophets of Doom explores eleven thinkers who not only dared to contradict the dominant linear and progressive view of history but also predicted many of the political and social maladies through which we are living [The Rise of the Alt-Right](#) Thomas J. Main,2018-07-31 What is the Alt Right and how will it affect America Donald Trump s election as president in 2016 suddenly brought to prominence a political movement that few in political circles or the mainstream media had paid much attention to the so called Alt Right Steven Bannon Trump s campaign manager was a leading figure in the movement and the election results seemed to give it a real opportunity to gain some political power But what is the Alt Right Is it a movement a theory a trend or just an unorganized group of people far

outside of what used to be the political mainstream in America Or could it be all of these things Why has it suddenly emerged into prominence What impact is it having on American politics today and what are the prospects for the Alt Right in the future Through careful research and analysis *The Rise of the Alt Right* addresses these and other questions tracing the movement's history from the founding of modern conservatism in postwar America to the current Trump era Although the Alt Right might seem to be just the latest extremist group to arise in the United States one likely to take its place in the graveyard of its many predecessors Thomas J Main analyzes evidence that the Alt Right is having a greater influence on the American political mainstream than did past extremist tendencies *The Rise of the Alt Right* is thus an important study for anyone interested in the future of American politics and public life

Traditionalism Mark Sedgwick, 2023-06-01 The definitive guide to Traditionalism the world's least known major philosophy but one that is essential for understanding our past present and future Traditionalism is founded on ancient teachings that its followers argue have been handed down from time immemorial forming a basis of the sacred order that must be defended from modernity and the disorder it brings It has been used to encourage respect for the environment compose great music and reduce hostility between followers of different religions But Traditionalism has applied to darker causes from the election of Donald Trump to fascist movements and even terrorism How has Traditionalism been so influential for so long yet so little acknowledged and understood Its followers have never aimed to reach the masses and have sought to affect the world quietly In this book the first of its kind for a wide audience Traditionalism's history ideas and profound impact are laid out shining a light onto this shadowy world and the thought of its three founders Ren Gu non Julius Evola and Frithjof Schuon Once you understand Traditionalism you will see its influence everywhere
