Insurrectionist Ethics Jacoby Adeshei Carter, Darryl Scriven, 2023-04-19 *Insurrectionist Ethics* is the name given to denote the myriad forms of justification for radical social transformation in the interest of freedom for oppressed people It is a set of advocacy systems that usually aim at liberation for specified populations under siege in a given society While the identities of these beleaguered groups is always intersectional one salient criterion of group membership is often chosen to be the rallying point for solidarity Whether the movement is Black Lives Matter, Gay Pride, or Poor People's Campaign at the nucleus of each is a cry for emancipation The contributions in this volume put forward bold, forcefully argued, provocative claims that challenge in a fundamental and radical way the presuppositions, values, and beliefs that underwrite the systems and structures that insurrectionist ethics calls into question The volume begins with a section defining and theorizing what insurrectionist ethics is and then moves to a section studying insurrectionist ethics across the Americas Additional sections focus on applications of and correctives to insurrectionist ethics, pragmatism, and naturalism, and the past, present, and future of insurrectionist ethics

The Horror of Police Travis Linnemann, 2022-09-06 Unmasks the horrors of a social order reproduced and maintained by the violence of police Year after year the crisis churns: graft and corruption, violence and murder, riot cops and armored vehicles claim city streets Despite promises of reform, police operate with impunity, unaccountable to law In *The*

Horror of Police Travis Linnemann asks why with this open record of violence and corruption policing remains for so many the best perhaps only means of security in an insecure world Drawing on the language and texts of horror fiction Linnemann recasts the police not only as self proclaimed monster fighters but as monsters themselves a terrifying force set loose in the world Purposefully misreading a collection of everyday police stories TV cop dramas detective fiction news media accounts the direct words of police not as morality tales of innocence avenged and order restored but as horror Linnemann reveals the monstrous violence at the heart of liberal social order The Horror of Police shows that police violence is not a deviation but rather a deliberate and permanent fixture of U S law and order Only when viewed through the refracted motif of horror stories Linnemann argues can we begin to reckon the limits of police and imagine a world without them *Creating and Sustaining Effective K-12 School Partnerships* Ahmad R. Washington, Ramon B. Goings, Malik S. Henfield, 2020-03-01

Although teachers school counselors and administrators are all situated within educational settings tasked with supporting students educational development rarely do these professionals have sufficient opportunities to learn from and collaborate with one another before entering these schools Unfortunately many of these professionals are unaware of the primary and secondary responsibilities their peers and colleagues assume What's worse this lack of insight potentially compromises the extent to which educational leaders can forge effective partnerships that benefit students from the most alienated disenfranchised and marginalized communities e g Black children in under resourced schools While the educational discourse has included recommendations for maximizing interactions between these educational professionals the collective voices of teachers school counselors and administrators in regards to these issues has not been adequately examined Thus this book is a compilation of manuscripts and studies that explore partnerships and strategies educators and educational leaders use to produce positive socio educational outcomes for Black students in various contexts *Creating and Sustaining Effective K 12 School Partnerships Firsthand Accounts of Promising Practices* is unique because it illuminates examples of effective school community partnerships that foster positive student outcomes *Creating and Sustaining Effective K 12 School Partnerships Firsthand Accounts of Promising Practices* is intended as a practical text for committed educational leaders at different professional points e g practicing teachers pre service school counselors and teachers who are eager to transform the current educational trajectory of Black children through interventions that show promise **A Recipe for**

Travel and the Pan African Imagination Tracy Keith Flemming,2021-09-02 Travel and the Pan African Imagination explores the African Atlantic world as a productive theater or space where modernity racialized dominance and racialized resistance took form The book stresses the importance of placing three Atlantic figures the Charleston South Carolina based armed resistance leader Denmark Vesey the West African emigration advocate Edward Wilmot Blyden and the Christian missionary and teacher in Liberia as well as the United States Alexander Crummell within an Atlantic context and as African world community figures between the late eighteenth and early twentieth centuries The book also examines the religious origins of Black Power ideology and modern Pan Africanism as products of the intense dialogue within the African world community about concepts of modernity progress and civilization Tracy Keith Flemming identifies how travel and social mobility led to the generation of an ever more complex and dynamic Atlantic world and of a fluid and adaptive African world community imagination for those figures who were forced to operate within and against a racially framed universe The vexing social position and symbolic figure of the African was central to the dilemmas facing the racialized imagination of African world community figures and the discipline of Africology

Necropolitics Christophe D. Ringer,2020-11-17 Necropolitics The Religious Crisis of Mass Incarceration in America explores the pernicious and persistent presence of mass incarceration in American public life Christophe D Ringer argues that mass incarceration persists largely because the othering and criminalization of Black people in times of crisis is a significant part of the religious meaning of America This book traces representations from the Puritan era to the beginning of the War on Drugs in the 1980s to demonstrate their centrality in this issue revealing how these images have become accepted as fact and used by various aspects of governance to wield the power to punish indiscriminately Ringer demonstrates how these vilifying images contribute to racism and political economy creating a politics of death that uses jails and prisons to conceal social inequalities and political exclusion
