exploded their first atomic bomb starting the Cold War Robert Klara reveals what has until now been little understood about this episode America's most famous historic home was basically demolished giving birth to today's White House Leaving only the mansion's facade untouched workmen gutted everything within replacing it with a steel frame and a complex labyrinth deep below ground that soon came to include a top secret nuclear fallout shelter The story of Truman's rebuilding of the White House is a snapshot of postwar America and its first Cold War leader undertaking a job that changed the centerpiece of the country's national heritage The job was by no means perfect but it was remarkable and until now all but forgotten Includes photographs Captivating From bathtubs to bomb shelters Klara leaves no piece of crumbling sandstone unturned and is as astute a storyteller as he is a dogged researcher Denise Kiernan New York Times bestselling author of The Last Castle **The Structurist**, 1997 Three Centuries of Notable American Architects Joseph Jacobs Thorndike, 1981 Profusely illustrated text describes the personalities and architectural achievements of major American architects of the past and present American Heritage, 1989 **Congressional Record** United States.
