Richard Jefferies H S Salt:

Edward Thomas's Prose Ralph Pite,2025-10-02 Edward Thomas 1878 1917 is a renowned poet Until recently his prose writing has by comparison been neglected and very often dismissed by critics Thanks not least to the multi volume new edition being published by OUP gen eds Guy Cuthbertson and Lucy Newlyn this body of work is being re evaluated This new study by Ralph Pite forms part of that undertaking it is the first to consider Thomas s prose on its own terms independently of the poetry that it preceded By considering all of Thomas s prose work in its wide variety of genres nature writing literary criticism fiction autobiography and by drawing for the first time on the whole range of his reviewing this study transforms understanding of his development The continuity of his critical perspective emerges his Celtic loyalties their nature and their depth are revealed both the complexity and the conviction of his politics are brought to light alongside his receptive alertness to innovative writing and his own originality and daring as a writer The view of his achievement generated by his interwar reception itself the outcome of societal mourning and griefwork is challenged so is the critical consensus regarding the quality of his prose and the reasons behind its changing styles across Thomas s career From all of this it becomes clear moreover how powerfully Thomas s work speaks in the contemporary moment of environmental and climate breakdown Thomas s prose seeks constantly to articulate a relationship of absolute interdependence between human beings and the natural world His writing is so exploratory and original because Thomas seeks to address the problematic reality that interdependence this truth of humanity s place in natural world is perceptible to Western eyes only as mystery **The**
