Alice Boner,1962 *Principles of Composition in Hindu Sculpture* Alice Boner,1994-09-06 The Illustrated Dictionary of Hindu Iconography Margaret Stutley,2019-04-09 Indian art increasingly popular in the west cannot be fully appreciated without some knowledge of the religious and philosophical background This book first published in 1985 covers all aspects of Hindu iconography and explains that its roots lie far back in the style of prehistoric art The dictionary demonstrates the rich profusion of cults divinities symbols sects and philosophical views encompassed by the Hindu religious tradition **The essence of form in sacred art** Alice Boner,Sadāśiva Rath Śarmā,Bettina Bäumer,1996-01-01 broke down after the defeat of Prthviraja the descendants of the Chauhan **Framing Intellectual and Lived Spaces in Early South Asia** Lucas den Boer,Elizabeth A. Cecil,2020-09-21 The contributions to this book address a series of confrontations debates between intellectual communities the interplay of texts and images and the intersection of monumental architecture and physical terrain and explore the ways in which the legacy of these encounters and the human responses to them conditioned cultural production in early South Asia c 4th 7th centuries CE Rather than an agonistic term the book uses confrontation as a heuristic to examine historical moments within this pivotal period in which individuals and communities were confronted with new ideas and material expressions The first half of the volume addresses the intersections of textual material and visual forms of cultural production by focusing on three primary modes of confrontation the relation of inscribed texts to material media the visual articulation of literary images and finally the literary interpretation and reception of built landscapes The second part of the volume focuses on confrontations both within and between intellectual communities The articles address the dynamics between peripheral and dominant movements in the history of Indian philosophy South Asian Transnationalisms Babli Sinha,2014-02-25 South Asian Transnationalisms explores encounters in twentieth century South Asia beyond the conventional categories of center and periphery colonizer and colonized Considering the cultural and political exchanges between artists and intellectuals of South Asia with counterparts in the United States continental Europe the Caribbean and East Asia the contributors interrogate the relationships between identity and agency language and space race and empire nation and ethnicity and diaspora and nationality This book deploys transnational syntaxes such as cinema dance and literature to reflect on social technological and political change Conceiving of the transnational as neither liberatory nor necessarily hegemonic the authors seek to explore the contradictions opportunities disjunctures and exclusions of the vexed experience of globalization in South Asia This book was published as a special issue of South Asian History and Culture The Mukteśvara Temple in Bhubaneswar Walter Smith,1994 Alice Boner, Artist and Scholar Alice Boner,1989
Seven Little Known Birds of the Inner Eye Mulk Raj Anand,2009-10-10 In this fascinating informal approach to art appreciation an eminent Indian scholar reveals the crucial difference between merely looking at and really seeing painting

and sculpture drawing and architecture And to the open minded and sensitive observer he shows how simple perceptions can be transmuted into darshana the pure delight of union with the inner life of a work of art The presentation is poetic not technical directed toward the general reader rather than the specialist The author begins by symbolizing certain powers of the imagination as the seven little known birds of the inner eye Then he traces these energies of the body soul through a wide range of aesthetic response from the first almost involuntary discriminations lines colors and forms to the insights attained by the third eye of total vision Illustrated and discussed are the superb murals and breathtaking architecture of India ancient symbols and modern experiments the landscape paintings of Song China and the works of major Western artists
