Problems And Methods In The Study Of Politics:

Problems and Methods in the Study of Politics Ian Shapiro, Rogers M. Smith, Tarek E. Masoud, 2004 The study of politics is beset by debates about method In this book some of the world's most prominent scholars of politics offer original discussions exploring what political science is and how political scientists should aspire to do their work

Humanitarianism in Question Michael Barnett, Thomas G. Weiss, 2008-03-14 Years of tremendous growth in response to complex emergencies have left a mark on the humanitarian sector Various matters that once seemed settled are now subjects of intense debate What is humanitarianism Is it limited to the provision of relief to victims of conflict or does it include broader objectives such as human rights democracy promotion development and peacebuilding For much of the last century the principles of humanitarianism were guided by neutrality impartiality and independence More recently some humanitarian organizations have begun to relax these tenets The recognition that humanitarian action can lead to negative consequences has forced humanitarian organizations to measure their effectiveness to reflect on their ethical positions and to consider not only the values that motivate their actions but also the consequences of those actions In the indispensable *Humanitarianism in Question* Michael Barnett and Thomas G Weiss bring together scholars from a variety of disciplines to address the humanitarian identity crisis including humanitarianism's relationship to accountability great powers privatization and corporate philanthropy warlords and the ethical evaluations that inform life and death decision making during and after emergencies

Visual Politics and North Korea David Shim, 2013-10-15 In the realm of international relations there are seemingly few states like North Korea Whether it is the country's human rights situation its precarious everyday life or its so called foreign policy of coercion and nuclear brinkmanship no matter what this pariah nation says and does it affects the state and stability of regional and global politics But what do we know about North Korea and how do we come to know it This book argues that visual imagery plays a decisive role in this operation By discussing two exemplary areas everyday photography and satellite imagery the book takes into account the role of images in the way that particular issues related to North Korea are understood in contemporary geopolitics Images work They do something by evoking a particular perspective of what is shown in them allowing only specific ways of seeing and knowing In this sense images are deeply political Individual methodological usages in the book can provide a procedural basis from which to start or rethink further studies on visuality both in IR and beyond It also opens an innovative path for future studies on East Asia making the book attractive to a range of specialists and thus holding an appeal beyond the boundaries of a single discipline

Recovering International Relations bridges two key divides in contemporary IR between value free and normative theory and between reflective philosophically inflected explorations of ethics in scholarship and close empirical studies of practical problems in world politics Featuring a novel provocative and detailed survey of IR s development over the second half of the twentieth century the work draws on early Frankfurt School social theory to suggest a new ethical and methodological foundation for the study of world politics sustainable critique which draws these disparate approaches together in light of their common aims and redacts them in the face of their particular limitations Understanding the discipline as a vocation as well as a series of academic and methodological practices sustainable critique aims to balance the insights of normative and empirical theory against each other Each must be brought to bear if scholarship is to meaningfully and responsibly address an increasingly dense heavily armed and persistently diverse world **U.S. Government Research Reports** ,1964
