Revisioning Philosophy Suny Series In Philosophy:

The American Soul Rush Marion Goldman, 2012-01-01 Yoga Humanistic Psychology Meditation Holistic Healing These practices are commonplace today Yet before the early 1960s they were atypical options for most people outside of the upper class or small groups of educated spiritual seekers Esalen Institute a retreat for spiritual and personal growth in Big Sur California played a pioneering role in popularizing quests for self transformation and personalized spirituality This soul rush spread quickly throughout the United States as the Institute made ordinary people aware of hundreds of ways to select combine and revise their beliefs about the sacred and to explore diverse mystical experiences Millions of Americans now identify themselves as spiritual not religious because Esalen paved the way for them to explore spirituality without affiliating with established denominations The American Soul Rush explores the concept of spiritual privilege and Esalen s foundational influence on the growth and spread of diverse spiritual practices that affirm individuals self worth and possibilities for positive personal change The book also describes the people narratives and relationships at the Institute that produced persistent almost accidental inequalities in order to illuminate the ways that gender is central to religion and spirituality in most contexts

Integral Education Sean Esbjörn-Hargens, Jonathan Reams, Olen Gunnlaugson, 2010-08-01 The educational challenges being faced today are driving us toward a new step in the evolution of educational theory and practice Educators are called to go beyond simply presenting alternatives to integrating the best of mainstream and alternative approaches and taking them to the next level Integral Education accomplishes this by bringing together leading researchers and practitioners from higher education who are actively exploring the frontiers of education from an integral perspective It presents an overview of the emerging landscape of integral education from a variety of theoretical and applied perspectives Key characteristics of integral education include exploring multiple perspectives employing different pedagogical techniques e g reflective dialogical empirical combining conceptual rigor with embodied experience drawing on developmental psychology and cultivating a reflective and transformative space for students and teachers alike Integral Education provides the most comprehensive synopsis of this exciting new approach and serves as a valuable resource for any integral effort within education

Whitehead's Philosophy Janusz A. Polanowski, Donald W. Sherburne, 2012-02-01 This volume explores the range of Alfred North Whitehead s philosophy and his relevance to contemporary philosophical traditions While philosophers and theologians with only a passing acquaintance with Whitehead might think that his philosophy is unconnected to our Western philosophical tradition the contributors prove that nothing could be further from the truth The most respected scholars in the field George Allan Lisa Bellantoni John B Cobb Jr Frederick Ferr David L Hall William S Hamrick Robert Cummings Neville Janusz A Polanowski Patrick Shade and Donald W Sherburne illustrate points of connection between Whitehead s ideas to the following Descartes the so called Father of Modern Philosophy classical American thought several contemporary American thinkers including Richard Rorty and Alasdair MacIntyre aspects of European philosophy and current reflections upon the

environment and technology *Loving God's Wildness* Jeffrey Bilbro, 2015-04-30 Analyzing writings ranging from the Puritans to the present day *Loving God's Wildness* traces the effects of Christian theology on America's ecological imagination revealing the often conflicted ways in which Americans relate to and perceive the natural world *Medicine & Philosophy* Ingvar Johansson, Niels Lynøe, 2013-05-02 This textbook introduces the reader to basic problems in the philosophy of science and ethics mainly by means of examples from medicine It is based on the conviction that philosophy medical science medical informatics and medical ethics are overlapping disciplines It claims that the philosophical lessons to learn from the twentieth century are not that nature is a social construction and that anything goes with respect to methodological and moral rules Instead it claims that there is scientific knowledge but that it is never completely secure that there are norms but that they are situation bound and that therefore it makes good sense to search for scientific truths and try to act in a morally decent way Using philosophical catchwords the authors advocate fallibilism and particularism a combination that might be called pragmatic realism **Environmental Ethics and Forestry** Peter C. List, 2000 Since the mid 1970s American forestry has come under increasingly vigorous scrutiny This reader brings together a variety of thinking in environmental ethics and philosophy as it applies to forestry *Whitaker's Books in Print*, 1998 *Bibliography on East Asian Religion and Philosophy*, 2001 This comprehensive research bibliography compiles annotates indexes and cross references resources in the principal Western languages which focus on China Japan and Korea in the areas of philosophy and religious studies supporting resources in theology history culture and related social sciences A notable additional feature is the inclusion of extensive Internet based resources such as a wide variety of web sites discussion lists electronic texts virtual libraries online journals and related material *Both One and Many* Oliver Griebel, 2024-04-16 Meister Eckhart might have liked it Indeed many one thinking is the idea that there is the one ultimate origin coherence spirit of it all but not without a multitude and diversity emerging within which is the evolving universe with planets like Earth with its biosphere and humankind with you and me living in it The Many One is thought of as the whole of the cosmos complementing and entangled with all its parts as beings inside Being and Being inside beings as the Creator and his co creating creatures The both one and many idea takes a strong stance against any ultimate either or reduction against isms of all sorts Being unity and plurality and duality all at once the Many One is neither monistic nor pluralistic nor dualistic in any way Inside this broad frame it is open for many specific approaches not least those represented in this volume which are cosmic holism cultural spiritual evolution thought Higher We integral thinking the Metaphysics of Adjacency panentheism process theology and transpersonal participatory thinking However the many one idea also chimes in with approaches not sampled here like Roy Bhaskar's Critical Realism Edgar Morin's Complex Thought or metamodernism *Processing Reality* John H. Buchanan, 2022-10-27 In this book John Buchanan takes us on a journey through the early death of a parent the ups and downs of addiction the extraordinary revelations of psychedelic experiences and the rewards of a sober and meaningful life

Reflecting on these experiences the author identifies five pivotal events that drove him to seek a deeper understanding of the significance of extraordinary experiences the nature of mind and the universe the meaning of life and most generally to ask What is Reality Drawing on his wide ranging studies and explorations Buchanan discusses the ideas that most influenced his search and led him to conclude that transpersonal psychology and process philosophy especially as developed by Stanislav Grof and Alfred North Whitehead offer the most satisfying answers He presents in some detail the essence of Grof s and Whitehead s thought as it pertains to these basic questions about life and reality so that readers can appreciate these ideas for themselves Buchanan argues that taken together process thought and transpersonal theory offer the kind of enspirited worldview capable of providing both the necessary inspiration and the intellectual understanding for confronting the great challenges facing our world
