Routledge Companion to the Frankfurt School Peter E. Gordon, Espen Hammer, Axel Honneth, 2018-09-03 The portentous terms and phrases associated with the first decades of the Frankfurt School exile the dominance of capitalism fascism seem as salient today as they were in the early twentieth century The *Routledge Companion to the Frankfurt School* addresses the many early concerns of critical theory and brings those concerns into direct engagement with our shared world today In this volume a distinguished group of international scholars from a variety of disciplines revisits the philosophical and political

Freedom and Negativity in Beckett and Adorno Natalie Leeder, 2017-05-04 Since his notorious 1961 lecture Trying to Understand Endgame Theodor W Adorno's name has been frequently coupled with that of Samuel Beckett This book offers a radical reappraisal of the intellectual affinities between these two figures whose paths crossed all too fleetingly Specifically the book argues for a preoccupation with the concept of freedom in Beckett's works one which situates him as a profoundly radical and even political writer Adorno's own more explicit reconceptualization of freedom and its scarcity in modernity offers a unique lens through which to examine the way Beckett's works preserve a minimal space of freedom that acts in opposition to an unfree social totality While acknowledging both the biographical encounters between Adorno and Beckett and the influence Beckett's writings had on Adorno's aesthetics Natalie Leeder goes further to establish a dialogue between their intellectual positions working with a range of texts from both writers and seeking insight in Adorno's less familiar works as well as his magnum opera Aesthetic Theory and Negative Dialectics

The Politics of Unreason Lars Rensmann, 2017-07-25 Although the Frankfurt School represents one of the most influential intellectual traditions of the twentieth century its multifaceted work on modern antisemitism has so far largely been neglected The Politics of Unreason fills this gap providing the first systematic study of the Frankfurt School's philosophical psychological political and social research and theorizing on the problem of antisemitism Examining the full range of these critical theorists' contributions from major studies and prominent essays to seemingly marginal pieces and aphorisms Lars Rensmann reconstructs how the Frankfurt School faced with the catastrophe of the genocide against the European Jews explains forms and causes of anti-Jewish politics of hate The book also pays special attention to research on coded and secondary antisemitism after the Holocaust and how resentments are politically mobilized under conditions of democracy By revisiting and rereading the Frankfurt School's original work this book challenges several misperceptions about critical theory's research making the case that it provides an important source to better understand the social origins and politics of antisemitism racism and hate speech in the modern world
