A Regulatory Framework for the Art Market? Anna Bolz, 2022-11-24 This book addresses practical issues in connoisseurship and authentication as well as the legal implications that arise when an artwork's authenticity is challenged In addition the standards and processes of authentication are critically examined and the legal complications which can inhibit the expression of expert opinions are discussed The notion of authenticity has always commanded the attention of art market participants and the general art minded public alike Coinciding with this forgery is often considered to be the world's most glamorous crime packed with detective stories that are usually astonishing and often bizarre The research includes findings by economists sociologists art historians lawyers academics and practitioners all of which yield insights into the mechanics and peculiarities of the art business and explain why it works so differently from other markets However this book will be of interest not only to academics but to everyone interested in questions of authenticity forgery and connoisseurship At the same time one of its main aims is to advocate best practices in the art market and to stress the importance of cooperation among all disciplines with a stake in it The results are intended to offer guidance to art market stakeholders legal practitioners and art historians alike while also promoting mutual understanding and

cooperation *Proceedings of IAC-MEM 2015* collective of authors,2015-07-05 **London and the Emergence of a European Art Market, 1780-1820** Susanna Avery-Quash,Christian Huemer,2019-08-06 Showcasing diverse methodologies this volume illuminates London's central role in the development of a European art market at the turn of the nineteenth century In the late 1700s as the events of the French Revolution roiled France London displaced Paris as the primary hub of international art sales Within a few decades a robust and sophisticated art market flourished in London London and the Emergence of a European Art Market 1780 1820 explores the commercial milieu of art sales and collecting at this turning point In this collection of essays twenty two scholars employ methods ranging from traditional art historical and provenance studies to statistical and economic analysis they provide overviews case studies and empirical reevaluations of artists collectors patrons agents and dealers institutions sales and practices Drawing from pioneering digital resources notably the Getty Provenance Index as well as archival materials such as trade directories correspondence stock books and inventories auction catalogs and exhibition reviews these scholars identify broad trends reevaluate previous misunderstandings and consider overlooked commercial contexts From individual case studies to econometric overviews this volume is groundbreaking for its diverse methodological range that illuminates artistic taste and flourishing art commerce at the turn of the nineteenth century *Anonymous Art at Auction* Anne-Sophie V. Radermecker,2021-05-25 Working with a data set accounting for 13 000 auction sales results Anne Sophie V Radermecker explores what contemporary buyers value when purchasing paintings of unknown or uncertain authorship and which variables influence price formation mechanisms in this market segment The principle finding of this book is not only that historical names matter in the art market but so do all other alternative identification strategies that art market players use to label anonymous paintings Indirect names provisional names and spatiotemporal designations function as substitutes for real names that simulate identities create ex post stories around the artworks offered for sale and consequently reduce information asymmetry about an artist's identity with at time quite unexpected effects on price **The A-Z of the International Art Market** Tom Flynn,2016-11-03 A comprehensive wide ranging and historically well informed account Charles Saumarez Smith Royal Academy of Arts It is estimated that there are over 300 000 companies involved in the world's art market employing around 2.8 million people But the art world carries a veneer of mystery and secrecy that many people find daunting and the language used by market insiders can be alienating and confusing to those new to the art market The A Z of the International Art Market not only clarifies useful terms and definitions but also represents a significant contribution to the fast developing processes of transparency and democratisation in the global art business Comprising art market terms and core concepts both historical and contemporary this book is a long awaited reference source that offers a unique introduction to a dynamic business sector The A Z of the International Art Market provides an accessible and thorough insight into critical areas of market practice and custom that anyone involved in the art market will find useful and enlightening **Chinese Contemporary Art in the**

Global Auction Market Anita Archer, 2022-04-04 Chinese Contemporary Art in the Global Auction Market examines the rapid rise of the global market for Chinese Contemporary art across the turn of the millennium Focusing on key auction events it traces the systematic and strategic role played by auction houses in promoting the work of avant garde Chinese artists transforming them into multi million dollar global art superstars Anita Archer's research into this emerging art market reveals a powerful global network of collectors curators dealers and auction house specialists whose understanding of the mechanics of value formation in the global art world consolidated a framework for the promotion of Chinese Contemporary art to a Western audience

Art Markets and Digital Histories Claartje Rasterhoff, Sandra van Ginhoven, 2020-03-16 This Special Issue of Arts investigates the use of digital methods in the study of art markets and their histories As historical and contemporary data is rapidly becoming more available and digital technologies are becoming integral to research in the humanities and social sciences we sought to bring together contributions that reflect on the different strategies that art market scholars employ to navigate and negotiate digital techniques and resources The essays in this issue cover a wide range of topics and research questions Taken together the essays offer a reflection on what takes to research art markets which includes addressing difficult topics such as the nature of the research questions and the data available to us and the conceptual aspects of art markets in order to define and operationalize variables and to interpret visual and statistical patterns for scholarship In our view this discussion is enriched when also taking into account how to use shared or interoperable ontologies and vocabularies to define concepts and relationships that facilitate the use and exchange of linked open data for cultural heritage and historical research
