Multiple Signatures On Designers Authors Readers And Users:

Multiple Signatures Michael Rock, 2013 This book explores the diverse voices and disciplines that comprise the process of graphic design through the lens of authorship criticism projects and collaborations It includes essays interviews diagrams annotations illustrated lectures and case studies from Michael Rock and contributors such as Susan Sellers Georgie Stout Rem Koolhaas Mark Wigley Paul Elliman Enrique Walker Rick Poynor and Lucia Allais among many others Multiple Signatures examines all aspects of contemporary visual culture from branding and authorship to urban screens conspiracy theory and t shirt design

Thinking through Graphic Design History Aggie Toppins, 2025-01-23 Graphic design has a paradoxical relationship to history While it claims to promote originality and innovation ideas that emphasize the new and unique design practice is deeply embedded in previous ideals Too often design students encounter the past in brief visual impressions which seduce them to imitate form rather than engage with historical contexts Even though it has claimed to be objective and even comprehensive graphic design history has focused largely on individual careers and Eurocentric achievements Yet the past swells with untapped potential Graphic design history can serve the field of today and tomorrow but its narratives require updates History like design is always changing and like design history is driven by present day questions This book shows how students and practicing designers can enrich their work by thinking historically about design With thoughtful analyses stimulating creative prompts inspiring case studies and perspectives from designers all over the world this book challenges our traditional understanding of graphic design history and the very notion of the design canon offering ways to shape socially engaged critical practices

Towards a Cognitivist Understanding of Communication Design Phil Jones, 2024-06-12 This book demonstrates the relevance and importance of cognitive linguistics when applied to the analysis and practice of graphic design communication design Phil Jones brings together a diverse range of theory and organizes it in accordance with different stages in the design process Using examples from contemporary communication design as well as more familiar selections from the graphic design canon as case studies this book provides an account of how meanings are made by users and suggests new strategies for design practice It seeks convergences between the ways that graphic communication designers think and talk about their practice and the theories emerging from cognitive science This book will be of interest to scholars working in design graphic design the philosophy of art and aesthetics communication studies and media and film studies

Landscape as Infrastructure Pierre Belanger, 2016-11-10 As ecology becomes the new engineering the projection of landscape as infrastructure the contemporary alignment of the disciplines of landscape architecture civil engineering and urban planning has become pressing Predominant challenges facing urban regions and territories today including shifting climates material flows and population mobilities are addressed and strategized here Responding to the under performance of master planning and over exertion of technological systems at the end of twentieth century this book argues for the strategic design of infrastructural ecologies describing a synthetic landscape of living

biophysical systems that operate as urban infrastructures to shape and direct the future of urban economies and cultures into the 21st century Pierre B langer is Associate Professor of Landscape Architecture and Co Director of the Master in Design Studies Program at Harvard University s Graduate School of Design As part of the Department of Landscape Architecture and the Advansed Studies Program B langer teaches and coordinates graduate courses on the convergence of ecology infrastructure and urbanism in the interrelated fields of design planning and engineering Dr B langer is author of the 35th edition of the Pamphlet Architecture Series from Princeton Architectural Press GOING LIVE from States to Systems pa35 net co editor with Jennifer Sigler of the 39th issue of Harvard Design Magazine Wet Matter and co author of the forthcoming volume ECOLOGIES OF POWER Mapping Military Geographies Logistical Landscapes of the U S Department of Defense As a landscape architect and urbanist he is the recipient of the 2008 Canada Prix de Rome in Architecture and the Curator for the Canada Pavilion ad Canadian Exhibition EXTRACTION at the 2016 Venice Architecture Biennale extraction ca [The Prize of Success](#) Jonas Berthod,2024-04-02 In the small world of Swiss graphic design prizes such as the Swiss Design Awards SDA are followed closely The winners works are admired envied and emulated The generous prize money allows designers to launch their careers and focus on lesser paid but critically recognised work Awards thus play the role of bellwethers of the scene However criticisms inevitably arise Speaking in hushed tones designers speculate as to why a colleague won over another Rumours have it that jury members favour their inner circles and exclude competitors Analysing this universe in detail Jonas Berthod retraces the recent history of the SDA and the emergence of a new design culture in Switzerland

Data Politics Didier Bigo, Engin Isin, Evelyn Ruppert, 2019-03-13 Data has become a social and political issue because of its capacity to reconfigure relationships between states subjects and citizens This book explores how data has acquired such an important capacity and examines how critical interventions in its uses in both theory and practice are possible Data and politics are now inseparable data is not only shaping our social relations preferences and life chances but our very democracies Expert international contributors consider political questions about data and the ways it provokes subjects to govern themselves by making rights claims Concerned with the things infrastructures of servers devices and cables and language code programming and algorithms that make up cyberspace this book demonstrates that without understanding these conditions of possibility it is impossible to intervene in or to shape data politics Aimed at academics and postgraduate students interested in political aspects of data this volume will also be of interest to experts in the fields of internet studies international studies Big Data digital social sciences and humanities

Invocational Media Chris Chesher, 2023-10-19 Invocational Media critiques the sociotechnical power of digital technologies by introducing the concept of invocational media What is an invocation Ask your voice assistant and it will define it for you It is a media artefact that responds to many invocations such as seeking the weather forecast requesting any song you can name or turning on the lights almost magically This contemporary manifestation of the ancient practice of invocation gives an immediate response to your call in a way that Chris Chesher argues is the characteristic power of all computers which he redefines as invocational media This book challenges the foundations of computer science by offering invocation as a powerful new way of conceptualising digital technologies Drawing on media philosophy Deleuze Guattari Heidegger Latour Austin Innis and McLuhan it critiques the representationalism of data processing artificial intelligence and virtual reality Invocational media seem to empower individuals but necessarily subject users to corporate and government monopolies of invocation They offer many solutions but only by reducing everything to the same kind of act They complicate agency in their indifference as to whether invokers

are human or non human With robotics they invoke material form to act physically and autonomously People willingly make themselves invocable to surveillance and control by creating their own profiles and marking themselves with biometrics This ground breaking book will change how you think about digital media by showing they are in fact invocational media
