Medieval Ireland Clare Downham, 2017-12-07 Medieval Ireland is often described as a backward looking nation in which change only came about as a result of foreign invasions By examining the wealth of under explored evidence available Downham challenges this popular notion and demonstrates what a culturally rich and diverse place medieval Ireland was Starting in the fifth century when St Patrick arrived on the island and ending in the fifteenth century with the efforts of the English government to defend the lands which it ruled directly around Dublin by building great ditches this up to date and accessible survey charts the internal changes in the region Chapters dispute the idea of an archaic society in a wide range of areas with a particular focus on land use economy society religion politics and culture This concise and accessible overview offers a fresh perspective on Ireland in the Middle Ages and overthrows many enduring stereotypes *Municipal Government in Great Britain* Albert Shaw, 1895

Municipal Government in Ireland John Joseph Webb, 1918 **The Coroners of Northern Britain c. 1300-1700 R.**

Houston,2014-03-18 For the last 800 years coroners have been important in England s legal and political landscape best known as investigators of sudden suspicious or unexplained death Against the background of the coroner s role in historic England this book explains how sudden death was investigated by magistrates in Scotland Lords and Towns in Medieval Europe Howard B. Clarke,Anngret Simms,2017-07-14 This volume is the first publication to draw upon the mass of information provided by the Historic Towns Atlases in order to explore comparative questions in medieval urban history The volume addresses the wider question of comparative urban studies the processes that determined the morphological formation of towns and the symbolic meaning of large scale town plans in their cultural context **Cities and Economy in Europe** Katalin Szende,Erika Szívós,Boglárka Weisz,2024-02-29 Exploring new perspectives concerning regions traditionally considered on the margins of Europe this book fills a gap in current historiography through its analysis of cities space and economy from the High Middle Ages to the present Markets trade and economy in general have formed the backbone of urban life ever since the emergence of cities and towns but classical theorists have largely focused on developments in Western Europe Urban research in the last few decades has advanced in many ways to supersede and correct this still influential image and to include other parts of Europe into the analytical framework Building on these emerging methodologies this volume pays close attention to the fringes of Europe in the East North West and South The essays discuss the development of various spaces as nodal points for the exchange and production of commodities that took place in cities and towns The scope of this work allows for a point of comparison to frequently studied examples in Europe encouraging readers to identify larger patterns beyond individual examples Cities and Economy in Europe Markets and Trade on the Margins from the Middle Ages to the Present is the perfect resource for students and researchers of economic and urban history **The Proceedings and Papers of the Royal Society of Antiquaries of Ireland** Royal Society of Antiquaries of Ireland,1892
