A Chain of Events Ruthie Green, 2012-08 The inauguration of Barack Obama as president of the United States of

America in 2009 marked a crucial turning point in African American history. It was the culmination of a chain of events that started nearly four hundred years ago when the evil of slavery cast its shadow on America. Tracing the history of black Americans, *A Chain of Events* documents how God gave them the freedom and will to rise from the ashes of slavery to become true Americans. Author Ruthie Green examines the harrowing life of slaves in early America, their emancipation by Abraham Lincoln, and their long struggle through the years for recognition as citizens of the United States. Green also discusses some of the African American community's most prominent and influential early members, including W. E. B. Du Bois, George Washington Carver, and Marcus Garvey Jr. She profiles leading African American entertainers and delves into the tumultuous years of the civil rights movement and the impact of Martin Luther King Jr. In addition, she talks about such important African Americans as Harriet Tubman, Frederick Douglass, Jesse Owens, the Tuskegee Army, Ethel Waters, and many more. *A Chain of Events* offers an eye-opening glimpse into the remarkable history of African Americans.

The B Side Ben Yagoda, 2015-01-22. From an acclaimed cultural critic, a narrative and social history of the Great American Songwriting era. Everybody knows and loves the American Songbook. But it's a bit less widely understood that in about 1950, this stream of great songs more or less dried up. All of a sudden, what came over the radio wasn't Gershwin, Porter, and Berlin, but "Come Fly With Me," "My House," and "How Much Is That Doggie in the Window." Elvis and rock and roll arrived a few years later, and at that point, the game was truly up. What happened, and why? In *The B Side*, acclaimed cultural historian Ben Yagoda answers those questions in a fascinating piece of detective work. Drawing on previously untapped archival sources and on scores of interviews, the voices include Randy Newman, Jimmy Webb, Linda Ronstadt, and Herb Alpert. The book illuminates broad musical trends through a series of intertwined stories. Among them are the battle between ASCAP and Broadcast Music Inc., the revolution in jazz after World War II, the impact of radio and then television, and the bitter decades-long feud between Mitch Miller and Frank Sinatra. *The B Side* is about taste and the particular economics and culture of songwriting and the potential of popular art for greatness and beauty. It's destined to become a classic of
