Johnson's First [-fifth] Reader, 1899 **Under Grandad's Cap** Patrick Behan, 2017-07-13 Autobiographies are usually the preserve of celebrities or politicians those who were born great achieved greatness or had greatness thrust upon them Patrick Behan falls into none of the above categories In the 87 years he spent on this planet he lived an ordinary life seldom straying from his native Dublin He was not a witness to momentous events he simply got on with his life and raised his family as best he could A popular fallacy is that an ordinary life is by extension uninteresting In this random sequence of tales and reminiscences we are led through a life full of fascinating memories combined with recollections of a local history that is fast fading from human memory Whether it is driving the turf by horse and cart into Dublin city centre or watching film star Tom Mix ride a white horse up James Street in full cowboy regalia the reader is treated to a slice of Dublin life as seen from the point of view of one of its ordinary citizens **It's a Cat's World . . . My cat told me - my dog told me Didier Hallépée, 2011-09-07 The cat and the dog have been occupying a prominent place in our homes and at our sides for many years. It is normal to come across them at any time in our literature or when visiting a website. Sometimes they occupy the central place and there are many books that have been devoted to them, sometimes by writers less well known than their companions. Other times they are just making the scene more lively, more truthful, because without them, where would be the soul of our homes. Through these quotes, you will first travel in time across regions, religions, and cultures: the Bible, Einstein, Mahomet, Queen Elisabeth II, Shakespeare, Agatha Christie, and many others. This little journey into the heart of wisdom or in the company of famous personalities will give you all the delights that our four-legged friends deserve. And at the heart of all these treasures, I'm sure you will find valuable thoughts to illuminate your every day. His life in a family of Egyptian Maus and King Charles Spaniels made him sensitive to the deepness of the thoughts of our favorite 4 legs. Didier HALL P E shares with us the many quotations he met in the over ten thousand books he could read

Black Hat Physical Device Security: Exploiting Hardware and Software Drew Miller, 2005-03-15 Black Hat Inc is the premier worldwide provider of security training, consulting, and conferences. In Black Hat Physical Device Security: Exploiting Hardware and Software, the Black Hat experts show readers the types of attacks that can be done to physical devices such as motion detectors, video monitoring, and closed circuit systems, authentication systems, thumbprint, and voice print devices, retina scans, and more. The Black Hat Briefings, held every year in Las Vegas, Washington DC, Amsterdam, and Singapore, continually expose the greatest threats to cyber security and provide IT mind leaders with ground-breaking defensive techniques. There are no books that show security and networking professionals how to protect physical security devices. This unique book provides step-by-step instructions for assessing the vulnerability of a security device such as a retina scanner, seeing how it might be compromised, and taking protective measures. The book covers the actual device as well as the software that runs it. By way of example, a thumbprint scanner that allows the thumbprint to remain on the glass from the last person could be bypassed by pressing a gummy bear piece of candy against the glass so that the scan works against the last thumbprint that was used on the device. This is a simple example of an attack.
