For Field Target Competition or General Use • Adjustable Stock and Butt Plate

The R11 air rifle represents a quantum leap forward in design. Built for the competitor, small game hunter, or backyard shooter, the R11 has features that everyone will appreciate. The cheekpiece can be adjusted up almost two inches. The superb butt plate assembly allows a similar range of movement up or down, plus has the ability to cant or twist the butt. The infinite combination of adjustments can provide a strainless fit for any shooter in any position!

A beautifully blued, all-steel barrel sleeve covers the carbine barrel and

helps dampen muzzle movement. The forestock and palm swell are stippled to give a sure grip under all shooting conditions, and the black highlights of the stippling and grooves along the forestock accent the rich brown hand-wood stock. The two-staged Beeman "R" Series trigger, already one of the finest available today, is also fully adjustable to the shooter's preference.

For those who enjoy field target competition, the R11 will be a genuine contender in the standard piston class right out of the box. No additions or accessories are

needed, except for a good scope and rings. This is one of the models successfully used by our own shooting team.

Available only in .177 caliber this rifle shoots at velocities well over 900 fps, and comes with an automatic safety that can easily be operated with the right thumb. No sights mar the sleek profile of this delightful rifle; its dovetailed receiver is intended to be used only with a scope.
