From Heart of Stone to Heart of Flesh: Evolutionary Journey from Extremism to Moderation Zeina M. Barakat, 2017-08-24 This book examines the forces of human transformation from extremism to moderation. It analyzes the ethical indicators which determine making the choice of the path to take when one is faced with crucial decisions to make. The author focuses on three central values namely a moderation reflecting balance in dealing with individual and group issues b reconciliation reflecting willingness to heal wounds and repair broken relationships by showing respect for the personal and collective narrative of the other and feeling empathy and compassion for the pain and suffering of other and viewing the perspective of the other by putting oneself in the shoes of the other c peace coexisting with the other reflecting tolerance for the beliefs and views of other. These three concepts are linked together in consequential sequence with each leading to the other and eventually resulting prosperity and security.

From Communication Landscapes to Bullying Battlegrounds, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014. How and why does miscommunication lead to conflict and the abuse of power? What is bullying and in what sense is it an abuse of power? Drawing on the expertise of twenty five researchers from academia public and private spheres this work discusses these and a wide range of other questions relating to communication conflict bullying and the abuse of power. Although ideally in a perfect world these questions would not even arise even if this should be Leibniz's best of all possible worlds it is still an imperfect world and so these questions arise and are in want of exploration. The chapters comprising this work contain the fruit of multi and inter disciplinary discussions that occurred in an atmosphere of mutual respect and cooperation with the common goal of better understanding and advancing knowledge on these issues.

Morals and Consent Malcolm Murray, 2017-09-27 An evolutionary defence of contractarian ethics as applied to social norms

Moral Matters - Second Edition Jan Narveson, 1999-09-21 *Moral Matters* is a concise and accessible look at such ethical issues as euthanasia animal rights abortion and pornography. It provides a focused set of views from the unified perspective of one of North America's leading libertarian thinkers and aims to provoke thought and discussion as well as to enrich understanding. For the new edition the text has been revised throughout the introduction has been greatly expanded and a new chapter on environmental issues has been added.

The Elimination of Morality Anne Maclean, 2005-08-12 *The Elimination of Morality* strikes at the root of the dominant conception of what medical ethics involves. It addresses the fundamental and timely question of the kind of contribution philosophers can make to the discussion of medico moral issues and the work of health care professionals. It has two main objectives. The first is to establish the futility of bioethics. Anne Maclean challenges the conception of reason in ethics which is integral to the utilitarian tradition and which underlies the whole bioethical enterprise. She argues that the enterprise is philosophically misguided: philosophers do not possess moral expertise and have no special authority to pronounce upon moral issues. In particular she shows that judgments about the morality of killing cannot be founded on a prior philosophical theory of the value of life. The final chapter demolishes the

medical model of illness and health which give exaggerated powers to the doctor and proposes a role for the philosopher in medical education which deprofessionalises life and death decisions The second objective is to expose the inadequacy of a utilitarian account of moral reasoning and moral life The author rejects the utilitarian claim that reason demands the rejection of special obligations and argues that the utilitarian drive to reduce rational moral judgment to a single form is ultimately destructive of moral judgment as such Pure utilitarianism eliminates the essential ingredients of moral thinking

Technology, Transgenics and a Practical Moral Code Dennis R. Cooley, 2009-09-28 Most philosophers still like to feel that they have a special subject matter well insulated from anything that the social scientists and scientists in general have to tell them That is not healthy for philosophy and it is all too likely to lead to an ethics that continues as of old to plead for its ultimatum the fact that one is totally ineffectual being decently concealed by an impressive terminology Stevenson 1963 pp 114-5 Many so called moral theories do not even attempt to explain or justify common morality but are used to generate guides to conduct intended to replace common morality These proposed moral guides those generated by all of the standard consequentialist contractarian and deontological theories are far simpler than the common moral system and sometimes yield totally unacceptable answers to moral problems Since these philosophers who put forward these theories have usually dismissed common morality as confused they are completely unaware of the complexity involved in making moral decisions and judgments It is not surprising that many who take morality seriously and try to apply it to real problems faced by actual people are so critical of moral theory Bernard Gert 1998 p 6 As both Stevenson and Gert note ethics requires social and other sciences for by its very nature ethics is a practical enterprise
