Classical Greek Ritual Theater Jan F. Brouwer, 2012-06-01 In this study a cross over is made between two fields of inquiry A theoretical model from anthropology Communitas will be applied to the phenomenon of classical Greek theater The purpose of this cross over is to gain a better understanding of the functionality of theater in 5th century Athens It is primarily the intention of this new reading of ancient comedy and tragedy to offer a contribution to a more correct interpretation of ancient literary texts Thus this book will show itself useful in the field of traditional philology Secondly the study wants to show itself useful in the field of anthropology by giving examples from Antiquity underlining and clarifying the theories of Van Gennep and Turner From an anthropological point of view it is interesting to see that Turner's findings not only clarify the functionality of non theatrical rituals but also the workings of theatrical rituals

Status, Power and Ritual Interaction Professor Theodore D Kemper, 2013-01-28 Sociologists mile Durkheim Erving Goffman and Randall Collins broadly suppose that ritual is foundational for social life By contrast this book argues that ritual is merely surface beneath which lie status and power the behavioral dimensions that drive all social interaction Status Power and Ritual Interaction identifies status and power as the twin forces that structure social relations determine emotions and link individuals to the reference groups that deliver culture and administer preferences actions beliefs and ideas An especially important contention is that allegiance to ideas even those as fundamental as the belief that 1 2 is primarily faithfulness to the reference groups that foster the ideas and not to the ideas themselves This triggers the counter intuitive deduction that the self a concept many sociologists social psychologists and therapists prize so highly is

feckless and irrelevant Status power theory leads also to derivations about motivation play humor sacred symbols social bonding creative thought love and sex and other social involvements now either obscure or misunderstood Engaging with Durkheim on collective effervescence Goffman on ritual cum public order and Collins on interaction ritual this book is richly illustrated with instances of how to examine many central questions about society and social interaction from the status power perspective It speaks not only to sociologists but also to anthropologists behavioral economists and social and clinical psychologists to all disciplines that examine or treat of social life
