Ritual Participation and Interreligious Dialogue Marianne Moyaert, 2015 *Ritual Participation and Interreligious Dialogue* Marianne Moyaert, Joris Geldhof, 2015-04-23 Shared ritual practices multi faith celebrations and interreligious prayers are becoming increasingly common in the USA and Europe as more people experience religious diversity first hand While ritual participation can be seen as a powerful expression of interreligious solidarity it also carries with it challenges of a particularly sensitive nature Though celebrating and worshipping together can enhance interreligious relations cross riting may also lead some believers to question whether it is appropriate to engage in the rituals of another faith community Some believers may consider cross ritual participation as inappropriate transgressive behaviour Bringing together leading international contributors and voices from a number of religious traditions *Ritual Participation and Interreligious Dialogue* delves into the complexities and intricacies of the phenomenon They ask what are the promises and perils of celebrating and praying together What are the limits of ritual participation How can we make sense of feelings of discomfort when entering the sacred space of another faith community The first book to focus on the lived dimensions of interreligious dialogue through ritual participation rather than textual or doctrinal issues this innovative volume opens an entirely new perspective

Interreligious Relations and the Negotiation of Ritual Boundaries Marianne Moyaert, 2019-08-05 This volume explores the ways in which interreligious encounters happen ritually Drawing upon theology philosophy political sciences anthropology sociology and liturgical studies the contributors examine different concrete cases of interrituality After an introductory chapter explaining the phenomenon of interrituality readers learn about government sponsored public events in Spain the ritual life of mixed families in China and the UK We meet Buddhist and Christian monks in Kentucky and are introduced to rituals of protest in Jerusalem Other chapters take us to shared pilgrimage sites in the Mediterranean and explore the ritual challenges of Israeli tour guides of Christian pilgrims The authors challenges readers to consider scriptural reasoning as a liturgical practice and to inquire into the in felicitous nature of rituals of reconciliation This volume demonstrates the importance of understanding the many contexts in which interrituality happens and shows how ritual boundaries are perpetually under negotiation

A Companion to Comparative Theology, 2022-08-22 *A Companion to Comparative Theology* offers a unique survey of a rapidly developing field of modern theology in 32 chapters coordinated by five editors Its first part discusses some of the main historical developments in theology and religious studies before 1985 that are relevant for understanding contemporary approaches in comparative theology The main part of the companion traces developments in five specific areas of comparative research starting with classical approaches by Christian comparative theologians and continuing with responses by scholars from Jewish Islamic Hindu Buddhist and Chinese religious comparative perspectives The final part of the companion highlights a number of new avenues in comparative theology discussing new methods new forms of awareness new partnerships with other fields of study and finally some preliminary

The Georgetown Companion to Interreligious Studies Lucinda Mosher,2022 The Georgetown Companion to Interreligious Studies is a comprehensive authoritative creative and cutting edge anthology of fifty essays that taken as a group provide insight into and food for further thought about sub categories of a field of academic inquiry that has developed rapidly in recent decades Interreligious Studies is an academic field in which scholars deliberately draw on at least one other religion in addition to their home tradition when reflecting on worldview questions an arena in which at least one religious discourse is involved with some other discourse Hence Interreligious Studies is inherently multi disciplinary bringing together the study of religion s with methodologies from the fields of anthropology sociology psychology political science history women s studies ecology and more Interreligious Studies gives pride of place to relational intersectional and dialogical approaches as it seeks theoretical and practical insights through the examination of how religions relate to each other to their own internal diversity to various social systems to society at large A recent assessment of Interreligious Studies programs in universities and theological schools indicates that they make wide but not exclusive use of comparative and critical methods that their purposes include cultivation of religious literacy promotion of dialogue fostering of citizenship and professional preparation for leadership in multireligious contexts

Rituals in Interreligious Dialogue Marcel Poorthuis,2020-04-30 Rituals are back on stage today Until recently they were regarded as an obsolete and even incomprehensible part of religions relegated to the background while ethics and spirituality attracted more focus However the realisation is growing that rituals represent the treasure of religious memory They connect the human being to the past and to the community that surrounds her or him However what happens to rituals when different religions meet This book shows that a great deal can be learned by taking rituals seriously This holds good for the rich treasure of rituals within religions such as Judaism Islam Hinduism and Christianity Only by recognizing these treasures can new possibilities for rituals in interreligious encounters be explored

The Past, Present, and Future of Theologies of Interreligious Dialogue Terrence Merrigan,John Friday,2017 A collection of thirteen essays which reflect on the problematic relationship between religious diversity and interreligious dialogue by examining key issues that arise from attempting to do justice to the doctrinal tradition of Christianity

Teaching for a Multifaith World Eleazar S. Fernandez,2017-05-05 When religious diversity is our reality radical hospitality to people of other faiths is not a luxury but a necessity More than necessary for our survival radical hospitality to religious diversity is necessary if we are to thrive as a global society By no means does the

practice of hospitality in a multifaith world require that we be oblivious of our differences On the contrary it demands a respectful embrace of our differences because that is who we are Neither does radical hospitality require that we water down our commitment because faithfulness and openness are not contradictory We must be able to say with burning passion that we are open to the claims of other faiths because we are faithful to our religious heritage The essays in this book do not offer simply theological exhortations they offer specific ways of how we can become religiously competent citizens in a multifaith world Let us take the bold steps of radical openness with this book on our side [Pope Francis and Interreligious Dialogue](#) Harold Kasimow, Alan Race, 2018-10-29 This book engages thinkers from different religious and humanist traditions in response to Pope Francis's pronouncements on interreligious dialogue The contributors write from the perspectives of Judaism Christianity Islam Hinduism Sikhism Buddhism and Humanism Each author elaborates on how the pope's openness to dialogue and invitation to practical collaboration on global concerns represents a significant achievement as the world faces an uncertain future The theological tension within the Catholic double commitment to evangelization on the one hand and dialogue on the other remains unresolved for most writers but this does not prevent them from praising the strong invitation to dialogue especially with the focus on justice peace and ecological sustainability **Buddhist-Christian Dual Belonging** Gavin D'Costa, Ross Thompson, 2017-05-15 A growing number of people describe themselves as both Buddhist and Christian but does such a self description really make sense Many people involved in inter faith dialogue argue that this dialogue leads to a mutually transformative process but what if the transformation reaches the point where the Buddhist or Christian becomes a Buddhist Christian Does this represent a fulfilment of or the undermining of dialogue Exploring the growing phenomenon of Buddhist Christian dual belonging a wide variety of authors including advocates sympathisers and opponents from both faiths focus on three key questions Can Christian and Buddhist accounts and practices of salvation or liberation be reconciled Are Christian theism and Buddhist non theism compatible And does dual belonging inevitably distort the essence of these faiths or merely change its cultural expression Clarifying different ways of justifying dual belonging contributors offer criticisms of dual belonging from different religious perspectives Theravada Buddhist Evangelical Reformed and Roman Catholic and from different methodological approaches Four chapters then carry the discussion forward suggesting ways in which dual belonging might make sense from Catholic Theravada Buddhist Pure land Buddhist and Anglican perspectives The conclusion clarifies the main challenges emerging for dual believers and the implications for interreligious dialogue
