Performance Enhancers:

The Ethics of Performance Enhancing Drugs in Sports Sandra A. McCalla, 2024-08-13 It may be a popular opinion that sports and ethics are incongruent or contradictory but ethical principles in sports are in fact integral for its protection Because of this invalid popular opinion a new conversation on ethical principles and issues in sports is warranted This should start here with a philosophical investigation into the areas of epistemology and autonomy with an effort to address ethical issues associated with the use of performance enhancement drugs doping in sports fair play equity and responsibility Readers are introduced to a new theoretical approach to addressing ethical issues in sports These issues are based on arguments advanced on responsible freedom perspective knowledge and duties that can be utilized by sports stakeholders athletes team doctors fans sporting organizations coaches etc as they strive for success and minimize unfair practices Important questions are posed concerning respect for others respect for rules respect for the game and respect for self Also an investigation into ethics and doping is conducted to unravel whether doping athletes impose undue limitations on their freedom Thus the idea of absolute freedom is questioned and privileged freedom is explored

Human Enhancement Drugs Katinka van de Ven, Kyle Mulrooney, Jim McVeigh, 2019-06-12 Despite increasing interest in the use of human enhancement drugs HEDs our understanding of this phenomenon and the regulatory framework used to address it has lagged behind Encompassing public health epidemiology neuroethics sport science criminology and sociology this book brings together a broad spectrum of scholarly insights and research expertise from leading authorities to examine key international issues in the field of HEDs As traditional and other new drug markets have occupied much of the academic attention there has been a lack of scholarly focus on human enhancement drugs This book provides readers with a much needed understanding of the illicit drug market of HEDs The authors from a variety of cultural contexts disciplines and perspectives include both academics and practitioners Topics explored in this collection amongst others include The anti doping industry and performance and image enhancing drugs Steroids and gender The use of cognitive enhancing drugs in academia The use of sunless synthetic tanning products The online trade of HEDs Regulations of the enhancement drugs market This collection will serve as a reference for students academics practitioners law enforcement and others working in this area to reflect on the current state of research and consider future priorities This detailed exploration will provide a valuable knowledge base for those interested in human enhancement drugs while also promoting critical discussion

The Ethics of Sports Technologies and Human Enhancement Thomas H. Murray, Voo Teck Chuan, 2020-07-26 This volume presents articles which focus on the ethical evaluation of performance enhancing technologies in sport The collection considers whether drug doping should be

banned the rationale of not banning ethically contested innovations such as hypoxic chambers and the implications of the prospects of human genetic engineering for the notion of sport as a development of natural talent towards human excellence The essays demonstrate the significance of the principles of preventing harm ensuring fairness and preserving meaning to appraise whether a particular performance enhancer is acceptable in the context of sport Selected essays on various forms of human enhancement outside of sport that highlight other principles and concepts are included for comparative purpose Sport enhancement provides a useful starting point to work through the ethics of enhancement in other human practices and endeavors and sport enhancement ethics should track broader bioethical debates on human enhancement As a whole the volume points to the need to consider the values and meanings that people seek in a given sphere of human activity and their associated principles to arrive at a morally grounded and reasonable approach to enhancement ethics **Manual of Sports**
