Gods toekomst voor dieren Raymond R. Hausoul,2019-02-26 In Gods toekomst voor dieren gaat de Vlaamse theoloog Raymond Hausoul de uitdaging aan om op een verantwoorde manier vanuit de christelijke geloofsleer dieper na te denken over Gods weg met dieren van schepping tot nieuwe schepping God houdt van dieren en geeft hun een bijzondere plaats in de schepping Maar hebben dieren ook een plaats in Gods verlossingswerk Zijn er straks dieren op de nieuwe aarde Zien we er ons geliefde huisdier terug en wat betekent dat voor onze huidige omgang met dieren

Reformed Theology and Evolutionary Theory Gijsbert Van den Brink,2020-02-25 Many books aim to help beginners explore whether or not evolutionary science is compatible with Christian faith This one probes more deeply to ask What do we learn from modern evolutionary science about key issues that are of special theological concern And what does Christian theology especially in its Reformed expressions say about those same key issues Gijsbert van den Brink begins by describing the layers of meaning in the phrase evolutionary theory and exploring the question of how to interpret the Bible with regard to science He then works through five key areas of potential conflict between evolutionary theory and Christian faith spelling out scientific findings and analyzing Christian doctrinal concerns along the way His conclusion although some traditional doctrinal interpretations must be adjusted evolutionary science is no obstacle to classical Christian faith

Faith Reads David Rainey,2008-07-30 At last a resource for librarians who wish to build or develop their nonfiction collection and use it to better serve the needs of adult Christian readers Covering the three major branches of Christianity Roman Catholic Protestant and Orthodox the author organizes more than 600 titles into subject categories ranging from biography the arts and education to theology devotion and spiritual warfare Award winning classics are noted Introductory narrative frames the literature and helps librarians better understand Christian literature and learn how to establish selection criteria for building a Christian nonfiction collection

40 Questions About Creation and Evolution Kenneth Keathley,Mark F. Rooker,2014-10-10 Biblically and scientifically informed answers to pressing questions about the creation evolution debate This accessible volume evenly addresses the issues of modern science and the scriptural texts The conservative evangelical authors are well informed on contemporary scientific views of the universe and also carefully exegete the biblical texts that pertain to creation They irenically consider the various angles of the debate and make constructive suggestions to reconcile science and the Bible Those who are curious about the origins of life and the universe will want to read this book Seminary students and serious college students will find this information critical as an understanding of creation is vital to an effective apologetic in sharing the faith

Holman QuickSource Guide to Understanding Creation Mark Whorton,Hill Roberts,2008-10-01 The Holman QuickSource Guide to Understanding Creation surveys every major issue relating to the theology and science of creation This includes proofs that the universe was created and designed by God a discussion of the

compatibility of Genesis with major theories in modern science a survey of evangelical opinion regarding the age of Earth and the nature of Noah's flood and an analysis of ancient non biblical creation myths Highly trained scientists and authors Mark Whorton and Hill Roberts are uniquely qualified to report these findings that are in line with their Christian faith The book also includes fascinating and helpful photographs and charts Timeless Vision Jim Johnson, 2024-04-12 Faith and facts are reconciled in this revelatory examination of biblical and secular truths that follows the path to God through science not around it Always a man of science Jim Johnson accepted Christ into his life shortly after his fiftieth birthday This acceptance of God's unseeable power did not shake his belief in science it strengthened it Through years of research on the world's evolution Johnson found that in studying every new hypothesis and theory he believes even more in God's universal role Timeless Vision Understanding God's Creation through the Lens of Science bridges the gap between faith and science Johnson examines the natural progression of Earth's creation alongside the seven biblical days explains the conundrum of time and expands upon the ever evolving relationship humanity has with science and religion Through analyzing scripture with detailed data and using science to bolster Christian beliefs Johnson reveals just how rare and privileged Earth and human life truly are It is through studying science and faith together not apart that we can see how God's plan was developed and why He did it One is not complete without the other Let Johnson lead you down the path less traveled the one of science and faith and show how God gave humanity these ways to discover Him more fully and completely En de aarde bracht voort Gijsbert van den Brink, 2017-06-17 Dit boek helpt christenen ontdekken of en hoe orthodox geloven en evolutie kunnen samengaan Stel dat de standaard evolutietheorie klopt Wat betekent dat dan voor het christelijk geloof Voor mijn geloof In dit boek onderzoekt dr Gijsbert van den Brink de mogelijke gevolgen van acceptatie van de evolutietheorie voor vragen als Hoe kijken we naar de Bijbel Hoe zit het met lijden en dood met Adam en Eva met de zondeval en hoe is de mens dan beeld van God Sluiten bovendien toevallige mutaties de voorzienigheid van God niet uit Van den Brink wil christenen met dit boek helpen ontdekken of en hoe orthodox geloven en evolutie kunnen samengaan **Death Before the Fall** Ronald E. Osborn, 2014-02-06 In this eloquent and provocative open letter to evangelicals Ronald Osborn wrestles with the problem of biblical literalism and the ongoing challenge of animal suffering within an evolutionary understanding of the world Osborn forces us to ask hard questions not only of the Bible and church tradition but also and especially of ourselves *The Crisis of Evangelical Christianity* Keith C. Sewell, 2016-04-26 In the broad context of Christianity as it developed over two millennia and with special reference to the last three centuries this discussion finds that Evangelicalism has repeatedly offered a reduced and distorted understanding of the faith The evangelical outlook is much less scriptural than evangelicals generally assume When it comes to appreciating the order of creation our calling to develop integral Christian thinking and living the religious significance of culture and the coming of the kingdom reductionist Evangelicalism struggles with its only rarely acknowledged deficiencies As a result we have all too often ended up with a Christianity shorn of its cosmic scope and wide

cultural implications and restricted to institutional church life and the cultivation of private spiritual experience The consequences are frequently enervating and corrosive Without disregarding what is important in the past evangelicals are here challenged to take the Bible much more seriously and thereby transcend the limitations of their habitual reductionism Evangelicals are encouraged to embrace an integral and full orbbed understanding of Christian discipleship that will equip the faithful to address the deep and complex challenges of the twenty first century
