People Places , 1976 Cities and Natural Process Michael Hough, 2004 This key book is a revised and updated

discussion of the fundamental conflict in the perception of nature and an expression of the essential need for an environmental view when approaching urban design Whilst retaining the existing structure each of the chapters has been revised to take into account recent theoretical and practical developments A completely new concluding chapter has been added which draws together the themes of the volume and links these to broader landscape issues such as greenway systems landscape ecology and green infrastructure Community Arts and Culture Initiatives in Singapore Zdravko

Trivic,2020-09-15 What Can Space Do for the Arts What Can Arts Do for Space and What Can Arts and Space Do for the Community Through the lenses of creative placemaking and neighbourhood arts ecology Trivic re examines the position of community arts in the spatial social and cultural landscape Emphasising urban design considerations of complex interdependent relationships between arts space and people he re explores the role of community based arts activities in shaping urban neighbourhoods enriching public life and empowering communities This is divided into an analysis of spatial opportunities for the arts in the neighbourhood and a study of the impacts of bringing arts and culture activities into local neighbourhoods and communities using Singapore's nodal approach as a developed case study Using spatial opportunity analysis the book demonstrates a step by step procedure for identification and evaluation of the neighbourhood spaces that work best for community arts and culture activities In the study of impacts Trivic proposes a holistic framework for capturing and evaluating the non economic impacts of arts and culture on space society well being education and participation An invaluable template for arts event organisers and artists to assess and maximise the outcomes of their creative efforts in local neighbourhoods as well as an important reading for students and practitioners of neighbourhood planning urban design and creative placemaking **The Sustainable Sites Handbook** Meg Calkins,2012-01-18 Get the definitive resource guide for sustainable site design construction and management The Sustainable Sites Initiative SITES is transforming land design development and management practices across the United States with the first national rating system for sustainable landscapes The Sustainable Sites Handbook features comprehensive and detailed information on principles strategies technologies tools and best practices for sustainable site design Contributors to this book are some of the same experts that carefully shaped the SITES rating tool ensuring thorough coverage of the broad range of topics related to sustainable site design The Sustainable Sites Handbook offers in depth coverage of design construction and management for systems of hydrology vegetation soils materials and human health and well being Focusing primarily on environmental site design and ecosystem services this wide ranging guide also covers issues of social equity economic feasibility and stewardship which are crucial to the success of any sustainable site Equally useful as a handbook for obtaining SITES credits or for the independent development of sustainable sites The Sustainable Sites Handbook is an indispensable resource for practicing professionals in landscape architecture landscape design architecture civil engineering land planning horticulture ecology environmental engineering landscape contracting and parks and recreation management *MetroGreen* Donna Erickson,2012-09-26 In

metropolitan areas across the country you can hear the laments over the loss of green space to new subdivisions and strip malls But some city residents have taken unprecedented measures to protect their open land and a growing movement seeks not only to preserve these lands but to link them in green corridors Many land use and urban planning professionals along with landscape architects and environmental advocates have joined in efforts to preserve natural areas MetroGreen answers their call for a deeper exploration of the latest thinking and newest practices in this growing conservation field In ten case studies of U S and Canadian cities paired for comparative analysis Toronto and Chicago Calgary and Denver and Vancouver and Portland among them Erickson looks closely at the motivations and objectives for connecting open spaces across metropolitan areas She documents how open space networks have been successfully created and protected while also highlighting the critical human and ecological benefits of connectivity MetroGreen s unique focus on several cities rather than a single urban area offers a perspective on the political economic cultural and environmental conditions that affect open space planning and the outcomes of its implementation Planning for Sustainability Stephen M. Wheeler, 2004-08-19

Existing patterns of urbanization are unsustainable in the long run Current development practices consume enormous amounts of land and resources damage local ecosystems produce pollutants create huge inequalities between groups of people and undermine local community and quality of life Unfortunately planning has itself led to many unsustainable development practices Planning for Sustainability presents a straightforward systematic analysis of how more sustainable cities and towns can be brought about It does so in a highly readable manner that considers in turn each scale of planning international national regional municipal neighbourhood site and building In the process it illustrates how sustainability initiatives at these different scales interrelate and how an overall framework can be developed for more livable communities
