Although the financial sustainability of United Nations UN support to institutional capacity building in post conflict contexts may be the least analysed topic on the peacebuilding agenda understanding the costs of rebuilding and maintaining the security sector should be one of the most important priorities for security sector reform SSR practitioners today Through innovative partnerships between the UN and the World Bank a new and important practice area in public financial management of the security sector is beginning to take shape This paper traces the new demands placed on peacekeeping operations to get more bang for every peacekeeping buck and explores how to match SSR priorities and recurring costs in the security sector with available resources over the long term In presenting the lessons learned from the security sector public expenditure review conducted by the UN and the World Bank in Liberia in 2012 the first such review jointly undertaken by the two organizations the paper seeks to illustrate how the discussion on right sizing of the security sector can go hand in hand with a discussion on right financing in order to help prioritize key reforms pragmatically in light of the available fiscal space Specifically the paper provides SSR practitioners with insights into the challenges often encountered when assisting national authorities to address the political economy of SSR and how to navigate those dilemmas

Direct facility financing: concept and role for UHC, 2022-02-15 *Manual de pago por desempeño* György Bèla Fritsche, Robert Soeters, Bruno Meessen, 2015-07-21 Los enfoques de Pago por Desempeño o PPD se han expandido con rapidez en los países de ingresos bajos y medios en todo el mundo El número de países ha crecido de 3 en 2006 a 32 en 2013 Los

esquemas de PPD están floreciendo y crean una demanda considerable de asistencia técnica a fin de ejecutar estas reformas sanitarias en una forma racional y responsable. Tres pioneros internacionales del PPD se han unido para dar una respuesta a esta demanda internacional. Ellos son Gyrgy Fritsche MD MSc Banco Mundial Washington, Robert Soeters MD PhD SINA Health La Haya y Bruno Meessen MA PhD Instituto de Medicina Tropical Amberes. Su trabajo vuelca sus 40 años de experiencia total en el diseño e implementación de esquemas de PPD en un manual de PPD de vanguardia dirigido a implementadores y hacedores de políticas. Se unió al equipo Godelieve van Heteren MD Erasmus University Rotterdam Global Health Initiative RGHI quien realizó la coedición a fin de darle al manual consistencia en contenido y formato. Cedric Ndizeye MD MPH MSH Ruanda redactó las partes principales del capítulo sobre desarrollo de competencias y Caryn Bredenkamp PhD Banco Mundial Washington contribuyó con el capítulo 5 sobre equidad. Actualmente existe poco conocimiento entre muchos de los que ejecutan reformas sanitarias sobre cómo implementar proyectos piloto de pago por desempeño y cómo ampliarlos a nivel nacional en forma inteligente. En un contexto de gran demanda de un diseño sólido y experiencia en la implementación y dada la rápida expansión de los programas de Financiación Basada en Resultados, existe una necesidad urgente de desarrollar competencias para el diseño e implementación de programas de FBR. Hasta el momento ha habido poco interés en combinar las enseñanzas de esas experiencias en un solo volumen y más aún en un formato que sirva como guía a los implementadores. Este manual es una respuesta a las preguntas más urgentes sobre programas de FBR del lado de la oferta del cual el PPD es parte. Este manual estará disponible en una versión online que será actualizada en forma regular y una versión impresa en 3 idiomas: inglés, francés y español.

Contract Management System Report, 2013 *The Political Economy of Education*
 Martin Carnoy, 2024-02-15. The Political Economy of Education provides academically rigorous yet clear explanations of the economics and politics driving today's educational systems and how economists analyze them. The book covers a host of topics central to teaching about education and crucial to educational policy. These include how to use the tools of economic and political theory to take critical measure of education's role in social mobility and economic growth, whether good teachers can overcome social class and race achievement gaps, the effectiveness of early childhood and vocational education, and debates on school accountability and whether increasing spending on schooling improves quality. The book also explores worldwide changes in higher education, especially massification and increased stratification and privatization. Written for upper undergraduate and graduate students in economics, public policy, and education and packed with real world examples, this is an essential text for anyone interested in gaining fresh and international perspectives on education.
