

Difference between Public International Law and Private International Law

Public International Law Public International Law

Ray August

Public International Law Public International Law:

Public International Law John H. Currie, 2008 This edition is a significant revision of the 2001 text and is a systematic introduction to the international legal system

Public International Law Tim Hillier, Timothy Hillier, 1994 This work covers the main traditional topics of public international law such as the nature and sources of international law the law of treaties jurisdiction personality and the peaceful settlement of disputes More specific subjects are also treated human rights the use of force the laws of war and the growing body of international environmental law The book aims wherever possible to identify the current areas of controversy giving details of the main arguments and providing the author's own comments Illustrations of the law and its applications from current international events are provided for example reference is made to recent events in the area of former Yugoslavia

An Introduction to Public International Law Cecily Rose, Niels

Blokker, Daniëlla Dam-de Jong, Simone van den Driest, Robert Heinsch, Erik Koppe, Nico Schrijver, 2022-03-03 Provides an accessible balanced and nuanced introduction to public international law with examples of how the law applies in practice

Law Among Nations James Larry Taulbee, Gerhard von Glahn, 2022-05-30 Offering a more accessible alternative to casebooks and historical commentaries *Law Among Nations* explains issues of international law by tracing the field's development and stressing key principles processes and landmark cases This comprehensive text eliminates the need for multiple books by combining discussions of theory and state practice with excerpts from landmark cases The book has been updated in light of the continuing revolution in communication technology the dense web of linkages between countries that involve individuals and bodies both formal and informal and important and controversial areas such as human rights the environment and issues associated with the use of force Renowned for its rigorous approach and clear explanations *Law Among Nations* remains the gold standard for undergraduate introductions to international law New to the Twelfth Edition Added or expanded coverage of timely issues in international law Drones and their use in the air and in space Outer space Cybercrime and responses The Julian Assange Case Environmental law Expanded discussion of space law Expanded discussion of conflict and non state actors Final cases in the ICTY Thoroughly rewritten chapters on areas of great change International Criminal Law Just War and War Crime Law International Economic Law newly restored in response to reviews International Environmental Law New cases statutes and treaties on many subjects

Brownlie's Principles of Public International Law Ian Brownlie, James Crawford, 2012-09-27 Serving as a single volume introduction to the field as a whole this book seeks to present international law as a system that is based on and helps structure relations among states and other entities at the international level It identifies the constituent elements of that system in a clear and accessible fashion

Public International Law Ray August, 1995 *Public International Law* found in business schools government and political science departments Written in plain English easily understood by nonspecialists this introduction to public international law draws on sources and materials from around the world and features law cases taken from countries from all regions of the

world Fundamentals of Public International Law Giovanni Distefano, 2019-05-07 Fundamentals of Public International Law by Giovanni Distefano provides an overview of public international law's main principles and fundamental institutions. By introducing the foundations of the legal reasoning underlying public international law, the extensive volume offers essential tools for any international lawyer regardless of the specific field of specialization. Dealing expansively with subjects, sources, and guarantees of international law, university students, scholars, and practitioners alike will benefit from the book's treatment of what has been called the Institutes of public international law.

The Function of Public International Law

Jan Anne Vos, 2013-02-26 This book addresses fundamental aspects of the concept of public international law in both theory and practice. The argument developed by the author is that underlying the traditional horizontal structure of public international law, a vertical structure of the concept of law may be discerned. This vertical structure is seen unfolding into two mutually exclusive frameworks: a framework of obligation accounting for obligations and a framework of authorization accounting for rights. The problem then arising is that a concept of public international law which only admits either rights or obligations cannot be regarded as coherent. The author, however, takes and substantiates the position that coherence can be achieved by suppressing the mutual exclusivity of both frameworks. This move paves the way to formulating the function of public international law in terms of the constituting of international society. Since in public international law the theoretical aspects profoundly affect practice, this book is not only of interest to academics but also for practitioners such as officials of foreign offices and international institutions.

International Law Mohammed Bedjaoui, 1991

The arrival of the International Law Achievements and Prospects can fairly be described as a major event in international legal publishing. It has been written by international lawyers from the North, the South, the East, and the West whose differing origins and different or even opposed academic backgrounds have ensured that the book encapsulates and brings into focus the main forms of civilization and the principal legal systems of the world. The book's most distinctive feature is its international, multi-cultural, and polyphonic nature. International Law Achievements and Prospects aims to inform and to educate, to make the discipline of international law accessible to a very broad public and to promote a meeting of minds on fundamental notions, key concepts, and the guiding principles of international law over and beyond frontiers, ideologies, and doctrines. In addition, it is intended to provide a framework for thought to describe what international law is today, to specify its nature, define its purpose, and show its strengths, and also to point out its weaknesses. All the contributing authors are or have been practitioners of international law. Their contributions express a global view of international law which helps to unravel the complex reality of the contemporary world. International Law Achievements and Prospects has been produced under the auspices of UNESCO; its content also aspires to reflect in some measure the imprint of that Organization's sponsorship.

Public International Law

Gideon Boas, 2012-01-01 Gideon Boas's experience as an international litigator and his renown as an academic practitioner means he was well placed to write a book on international law that both covers this growing field and enters it at key

moments to illustrate important themes This book accomplishes the difficult task of offering a wide ranging perspective on the whole field as well as conveying the ferment that surrounds it Students of international law will derive great benefit from it Gerry Simpson University of Melbourne Australia Public International Law offers a comprehensive understanding of international law as well as a fresh and highly accessible approach While explaining the theory and development of international law this work also examines how it functions in practice Case studies and recent examples are infused in the discussion on each topic and critical perspectives on the principles are given prominence building an understanding of how and why the international legal system operates in the way it does and where it is heading For each principle the book starts by explaining the theoretical foundations in detail before illustrating how these principles function in practice Features include a focus on fundamental principles of international law rather than specialist sub topics integrated and contextual explanation of political and extra legal dimension of international legal system principles of international law placed within a contemporary real life context traditional and contemporary case studies explained in the context of legal principles and uniform structure to facilitate understanding With insight founded on the author s many years of experience as a practitioner and academic in the field of international law this work will offer legal practitioners policy makers and students both undergraduate and postgraduate an invaluable insight into the field of international law
