Imagine if at the time of your death you had done everything you were told to do: you worked hard, saved money and looked forward to your financial freedom in retirement. The only thing you wasted was... Her life.

Sooner or later we all die, so we have to ask ourselves how to make the most of our finite time. William Perkins sees this question as an optimization problem: how can one lead a life that is maximally fulfilled and at the same time minimize the waste of one's lifetime? Some experiences can only be made at certain times, so it makes no sense to miss opportunities for fear of wasting our money. The waste of our lives should be a much greater concern. By planning exactly how to achieve the maximum of fulfilling experiences with the resources at your disposal, you also maximize your life.
