Autodesk Revit 2015 is designed for the architectural student new to Autodesk Revit 2015 This text takes a project based
approach to learning Autodesk Revit s architectural tools in which the student develops a single family residence all the way
to photo realistic renderings like the one on the cover Each book comes with a disc containing numerous video presentations
in which the author demonstrates and explains the many architectural tools and techniques used in Autodesk Revit 2015 The
lessons begin with a basic introduction to Autodesk Revit 2015 The first four chapters are intended to get the reader familiar
with the user interface and many of the common menus and tools Throughout the rest of the book a residential building is
created and many of Autodesk Revit s tools and features are covered in greater detail Using step by step tutorial lessons the
residential project is followed through to create elevations sections floor plans renderings construction sets etc **Interior
Design Using Autodesk Revit 2015** Daniel John Stine,2014 The intent of this book is to provide the interior design student
a well rounded knowledge of Autodesk Revit tools and techniques These skills can then be applied to enhance professional
development in both academia and industry The overall premise of the book is to learn Revit while developing the interior of
a two story law office The reader is provided an architectural model with established columns beams exterior walls minimal
interior walls and roofs in which to work This allows more emphasis to be placed on interior design rather than primary
architectural elements The chapters chronology generally follows the typical design process Students will find this book
helps them more accurately and efficiently develop their design ideas and skills The first chapter introduces the reader to
Revit Building Information Modeling BIM and the basics of opening saving and creating a new project The second provides a
quick introduction to modeling basic elements in Revit including walls doors windows and more This chapter is designed to
show students how powerful Revit is and hopefully make them more excited about learning it The remainder of the book is
spent developing the interior space of the law office with an established space program A student will learn how to view and
navigate within the provided 3D architectural model managing and creating materials and develop spaces with walls doors
and windows Once all the spaces are added to the model several areas are explored and used as the basis to cover Revit
commands and workflows At the end of this tutorial the reader will be able to model floor finishes ceilings with soffits
