Circles of the Russian Revolution Łukasz Adamski, Bartłomiej Gajos, 2019-06-03 This volume provides the English speaking reader with little known perspectives of Central and Eastern European historians on the topic of the Russian Revolution Whereas research into the Soviet Union's history has flourished at Western universities the contribution of Central and Eastern European historians during the Cold War working in conditions of imposed censorship to this field of academic research has often been seriously circumscribed Bringing together perspectives from across Central and Eastern Europe alongside contributions from established scholars from the West this significant volume casts the year 1917 in a new critical light *The Russian Revolution and Civil War 1917-1921* Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature *The Russian Revolution and Civil War 1917-1921* offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state
