**Patents for Power** Robert M. Farley, Davida H. Isaacs, 2020-10-30 In an era when knowledge can travel with astonishing speed the need for analysis of intellectual property IP law and its focus on patents trade secrets trademarks and issues of copyright has never been greater But as Robert M Farley and Davida H Isaacs stress in *Patents for Power* we have long overlooked critical ties between IP law and one area of worldwide concern military technology This deft blend of case studies theoretical analyses and policy advice reveals the fundamental role of IP law in shaping how states create and transmit defense equipment and weaponry The book probes two major issues the effect of IP law on innovation itself and the effect of IP law on the international diffusion or sharing of technology Discussing a range of inventions from the AK 47 rifle to the B 29 Superfortress bomber to the MQ 1 Predator drone the authors show how IP systems or their lack have impacted domestic and international relations across a number of countries including the United States Russia China and South Korea The study finds among other results that while the open nature of the IP system may encourage industrial espionage like cyberwarfare increased state uptake of IP law is helping to establish international standards for IP protection This clear eyed approach to law and national security is thus essential for anyone interested in history political science and legal studies
