

GAS FURNACES

CRITERION® II 78% A.F.U.E.[†] UPFLOW GAS FURNACES

The Rheem® Criterion® II line of upflow gas furnaces are designed for utility rooms, closets, or alcoves. Because of the Criterion's low-profile 34 inch (864 mm) height, the upflow model installed vertically can also be used to satisfy most applications that traditionally call for a horizontal furnace.

The design is certified by the American Gas Association. Canadian models are certified by the Canadian Gas Association.

Features

- Patented Turbulex® Heat Exchanger, constructed of both stainless and aluminized steel for the maximum in corrosion resistance.
- Low profile "34 inch" (864 mm) design is lighter and easier to handle, and leaves room for optional equipment.
- Standing pilot ignition system models only.
- Left or right side gas and electric inlet connections with quick, simple change.
- An accessory kit is available for humidifier and electronic air cleaner hook-ups.
- Insulated blower compartment, a slow-open gas valve and a specially designed draft inducer motor make it one of the quietest induced draft furnaces on the market today.
- Pre-paint galvanized steel cabinet.
- Grab-holes in doors to aid in easy door removal and replacement.
- Improved filter access/removal.
- Permanent washable filter.

A variety of cooling coils and plenums designed to use with Rheem Criterion II gas furnaces are available as optional accessories.

[†] A.F.U.E. (Annual Fuel Utilization Efficiency) calculated in accordance with Department of Energy test procedures.

RGDG- SERIES
Standing Pilot Models
with Input Rates from
45,000 to 150,000 BTU/HR
