The History of Rhetoric and the Rhetoric of History Nancy S. Struever, 2023-05-31 In the articles collected here Nancy Struever explores the basic assumption that rhetoric is not simply a bag of persuasive tricks but functions necessarily as a mode of inquiry investigating not simply the mechanics of production and reception of discourse but the psychological factors of reason and passion engaged by the assertion modification and contest of beliefs and dispositions of the civil communities The first section looks both at contemporary historians employing rhetorical constructs and tactics and at contemporary accounts of the employment of rhetorical pedagogical material and theoretical texts in medieval and Renaissance cultural practices The second set of articles considers change and continuity in the rhetorical exploitation of genre forms in cultural programs focuses on the strong reorientation of Classical forms of moral inquiry on the ingenious use of the proverb of etymology of the exemplum as well as on the changes in strategies in the theater the novel and art criticism The final section deals with the strong historical interconnections of rhetoric with other disciplines the motives and investigative tactics of medicine and rhetoric in the Renaissance and Early Modernity and the shared interests and interwoven careers of rhetoric and law

Rhetoric of History Peter Van Nuffelen, 2012-09-20 *Orosius Histories* written in 416 7 have long been seen as a paradigm for the Christian understanding of history Little attention has been paid to the literary form and tools which shape the *Histories* or to the contemporary practice of writing history Drawing on textual and rhetorical analysis this book proposes a major revaluation of the work arguing that it is much more subtle and complex than usually assumed At the same time the book uses *Orosius* as a lens to consider fourth and fifth century historiography and to question traditional distinctions between pagan and Christian historiography *Rhetoric, History, and Women's Oratorical Education* David Gold, Catherine

L. Hobbs, 2013-05-02 Historians of rhetoric have long worked to recover women's education in reading and writing but have only recently begun to explore women's speaking practices from the parlor to the platform to the varied types of institutions where women learned elocutionary and oratorical skills in preparation for professional and public life This book fills an important gap in the history of rhetoric and suggests new paths for the way histories may be told in the future tracing the shifting arc of women's oratorical training as it develops from forms of eighteenth century rhetoric into institutional and extrainstitutional settings at the end of the nineteenth century and diverges into several distinct streams of community embodied theory and practice in the twentieth Treating key rhetors genres settings and movements from the early republic to the present these essays collectively challenge and complicate many previous claims made about the stability and development of gendered public and private spheres the decline of oratorical culture and the limits of women's oratorical forms such as elocution and parlor rhetorics and women's responses to rhetorical constraints on their public speaking

Enriching our understanding of women's oratorical education and practice this cutting edge work makes an important contribution to scholarship in rhetoric and communication
