The Private Papers of Henry Ryecroft is a semi fictional autobiographical work by George Gissing in which the author casts himself as the editor of the diary of a deceased acquaintance selecting essays for posthumous publication It was partly because of the seasonal arrangement and Ryecroft's obvious love of the natural world that the book gained widespread popularity in Japan being introduced as early as 1908 by the scholar of English literature Tokuboku Hirata 1873 1943 Other contributing factors were the classic unaffected style which made the text suitable for educational and examination purposes and Ryecroft's frank assessments of society and politics which may have endeared him to the young academics of the country in the early part of the 20th century
