George Shaffner

Retirement Iq Plan Today Own Tomorrow:

Live for Today! Plan for Tomorrow Robert Montague, 2016-12-20 The primary theme from the first edition written in 2007 is that we must always live a balanced life A frequent tragedy experienced by many people is working and saving for a lifetime but never fully enjoying the fruits of their labor reaching retirement with substantial financial resources but unable to enjoy retirement due to an unexpected medical condition or death of a spouse The message throughout the pages is how to live every moment to its fullest dont postpone a dream for tomorrow because it may not come Learn about investments the markets and the economy plan and then implement it with the assistance of a professional and get on with the wonders of life Work hard toward success and being your best but not to the extent you are hurting yourself or your loved ones Live for today Plan for tomorrow

Retirementology Gregory Salsbury, 2010-04-25 Bonus content What s Your Retirementology I Q included in this digital edition Looking ahead to retirement Depending on your circumstances and your age you may no longer have any margin for error And your emotions and irrational behavior could be perpetuating a dangerous cycle of overspending and rising debt that may shatter whatever vision of retirement you still have Welcome to the world of Retirementology Retirementology bridges retirement planning with investor psychology and the market Meltdown of 2008 to produce an entirely new way of thinking about how we spend how we save how we borrow and how we invest Financial mistakes are deeply rooted in human nature but you may be able to overcome them if you understand the breakthrough principles of behavioral economics and apply them in your own retirement planning Dr Gregory Salsbury identifies some of the classic cognitive biases and behavioral mistakes most of us keep making when it comes to retirement planning For example Why will people drive 45 minutes to use a 2 00 coupon Why won t people sell a poor performing stock just because they inherited it from grandma Why do people spend differently with a credit card than they do with cash Why do people believe that they paid no income taxes because they received a refund You ll learn why the financial meltdown has amplified the impact of these all too human cognitive mistakes and discover ideas for addressing them The bottom line for your bottom line is that retirement can no longer be ignored viewed as a single event relegated to a zone or romanticized Instead you must understand how every spending and financial decision you make from here on can impact the way you will spend your golden years Retirementology attempts to help you do just that Retirement planning right brain versus left brain Why these different areas of the brain impact financial decisions and what to do about it It s real money De layering your finances How to overcome the psychological tricks that separate you from your money Family matters managing financial support decisions for your extended family Choosing between your family or your retirement Get long term smart How longevity inflation volatility and your own expectations impact your retirement goals
