

REVERSE SCAVENGER HUNT

Objective

Be a Recycling Superstar and know what is and is not recyclable.

What you will need

- 1 The list of what is and is not recyclable in your program.
- 2 Slips of paper with names of things that come in recyclable packages and things that are not recyclable items.
For example:

• bottled water	• magazine	• toy
• milk	• scrap paper	• shirt
• soup	• shipping box	• basket
• cereal	• shampoo	• book
• chips	• dish detergent	• battery
• snack bar	• laundry detergent	• cell phone or tablet
• soda	• paper towels	
• juice	• laundry detergent	
- 3 Make a master list of yes/no items. Create and fold slips with names of items and drop them into a bowl.
- 4 **OPTION:** Use a tablet to share the house diagram on the following page, print a diagram and complete the exercise on paper, or go around your house together. Up your game and write clues for each item.

To protect the planet
and keep it clean,
we must search the house
for items seen and unseen.

Where will you find it?
Where should it go?
When you finish this challenge,
you will certainly know!

Everything we buy and bring into
our home must someday go
somewhere else. Where should it go?

Ask your superstar(s) to tell you what they know about recycling. Can they list some things that do and don't belong in recycling?

With your master list ready, have each player reach into the bowl and pull a slip and read the clue.

Either have players bring you the item or mark on the house diagram where that item might be when it is either empty, outgrown or ready to pass on.

Discuss what path the item should take.

REMEMBER Recyclables must be **EMPTY** and **DRY**.

recycling adds up!

In Safe Hands Sheri Werner, 2012-05-04 As suicide continues to be one of the leading causes of death among children under the age of fourteen and as recent bullying statistics report a strong connection between bullying being bullied and suicide it is time for society to set aside its obsession with grade level benchmarks test scores and Blue Ribbon Schools and instead demand that our students achieve the academic successes they deserve by ensuring that they are educated in schools that are intellectually socially and emotionally safe *In Safe Hands Bullying Prevention With Compassion for All* is a hands on blueprint to helping schools parents and the community at large address and solve the problem of bullying This compelling examination of bullying includes real life examples and activities for implementation The fact that the program introduced in this book was developed not in response to the obvious and increasing need for bullying prevention and intervention in schools but merely as a model of how all schools can educate children in safe educational environments is what differentiates this book from other bullying prevention books on the market today
