Revolution And Renewal:

Repeating Revolutions Timothy Scott Johnson, 2025-01-17 *Repeating Revolutions* examines how activists intellectuals social scientists and historians looked to France's Revolutionary past to negotiate Algeria's struggle for decolonization from the 1930s to the 1960s The French Empire justified their claims over Algeria in part through messages of universal progress marked by the political visions tied to the French Revolution Supporters of Algerian independence confronted those historical claims by identifying the Algerian cause with the French Revolution and by highlighting the apparent contradictions between the history of 1789 and imperial rule Far right activists meanwhile saw the movement to decolonize Algeria as another manifestation of the revolutionary disorder stemming from the French Revolution Behind these analogies lay broader changes in the study of North African society and contemporary political relevance of the French Revolution The focus on analogies to the French Revolution puts different sets of actors in conversation with one another and offers a fresh take on how people's experiences and expectations changed throughout the Algerian War This book will appeal to readers interested in the intellectual history of decolonization the historiography of the French Revolution the historiography of North African studies and questions of historical comparison and conceptual change *East German Dissidents and the Revolution of 1989* C. Joppke, 1994-11-14 In contrast to the dissident movements of Eastern Europe the East German movement remained committed to the revisionist reform of the communist regime This book tries to explain why It is argued that the peculiarities of German history and culture prevented the possibility of a national opposition to communism As a result East German dissidents had to remain in a paradoxical way loyal to the old regime *The Future of Liberal Revolution* Bruce Ackerman, 2008-10-01 Since 1989 the Cold War has ended new nations have emerged in Eastern Europe and revolutionary struggles to establish liberal ideals have been waged against repressive governments throughout the world Will the promise of liberalism be realized What can liberals do to make the most of their opportunities and construct enduring forms of political order In this important and timely book a leading political theorist discusses the possibility of liberal democracy in Western and Eastern Europe and offers practical suggestions for its realization Bruce Ackerman begins by sketching the challenges faced a Western Europe free for the first time in half a century to determine its own fate without the constant intervention of the United States and the Soviet Union Unless decisive steps are taken this moment of promise can degenerate into a new cycle of nationalist power struggle Revolutionary action is now required to build the foundations of a democratic federal Europe a union strong enough to keep the peace and to combat the threat of local tyrannies Ackerman next considers Eastern Europe and discusses fundamental problems overlooked in the rush to build market economies there He points out that leading countries including Poland Hungary and Russia have yet to establish new constitutions contenting themselves instead with hasty amendments to old Communist documents This is a great mistake says Ackerman for there is an urgent need to constitutionalize liberal revolution and the window of opportunity for doing this is far smaller than many

people realize Neither judicial efforts to punish collaborators with the old regimes and to redress wrongs done to their victims nor the judicial activism now sweeping Eastern Europe should take priority over the formulation of democratically legitimated constitutions Ackerman concludes by considering the impact of 1989 on South Africa Latin America and the United States exploring how decisive liberal action throughout the world can help to expand the range of functioning constitutional democracies and recover liberalism s lost revolutionary heritage

Pedagogy, Politics and Philosophy of Peace Carmel Borg, Michael Grech, 2017-02-23 In an age where official and sponsored violence are becoming normalised and conceived of as legitimate tools of peace keeping a number of leading academics and activists represented in Pedagogy Politics and Philosophy of Peace interrogate and resist the intensification of the militarisation of civil life and of international relations Coming from different areas of study the contributors to this volume discuss peace and critical peace education from a range of perspectives The nature of peace myths related to peace the logistics of peace and peacemaking as well as the relation of peace and pedagogy in the broadest meaning of the term constitute the main themes of the book The common thread that binds the chapters together is the distinction between genuine authentic and false peace and the importance of critical reflection on actions that contribute to genuine peace

The Sandinista Revolution Mateo Jarquín, 2024-04-10 The Sandinista Revolution and its victory against the Somoza dictatorship in Nicaragua gripped the United States and the world in the 1980s But as soon as the Sandinistas were voted out of power in 1990 and the Iran Contra affair ceased to make headlines it became in Washington at least a thing of the past Mateo Jarquin recenters the revolution as a major episode in the history of Latin America the international left and the Cold War Drawing on research in Nicaragua Cuba Mexico Panama and Costa Rica he recreates the perspective of Sandinista leaders in Managua and argues that their revolutionary project must be understood in international context Because struggles over the Revolution unfolded transnationally the Nicaraguan

drama had lasting consequences for Latin American politics at a critical juncture It also reverberated in Western Europe among socialists worldwide and beyond illuminating global dynamics like the spread of democracy and the demise of a bipolar world dominated by two superpowers Jarquin offers a sweeping analysis of the last left wing revolution of the twentieth century an overview of inter American affairs in the 1980s and an incisive look at the making of the post Cold War order

Revolutions and Reconstructions Van Gosse, David Waldstreicher, 2020-08-28 Revolutions and Reconstructions gathers historians of the early republic the Civil War era and African American and political history to consider not whether black people participated in the politics of the nineteenth century but how when and with what lasting effects Collectively its authors insist that historians go beyond questioning how revolutionary the American Revolution was or whether Reconstruction failed and focus instead on how political change initiated by African Americans and their allies constituted the rule in nineteenth century American politics not occasional and cataclysmic exceptions The essays in this groundbreaking collection cover the full range of political activity by black northerners after the Revolution from cultural politics to widespread voting within a political system shaped by the rising power of slaveholders Conceptualizing a new black politics contributors observe requires reorienting American politics away from black white and North South polarities and toward a new focus on migration and local or state structures Other essays focus on the middle decades of the nineteenth century and demonstrate that free black politics not merely the politics of slavery was a disruptive and consequential force in American political development From the perspective of the contributors to this volume formal black politics did not begin in 1865 or with agitation by abolitionists like Frederick Douglass in the 1840s but rather in the Revolutionary era's antislavery and citizenship activism As these essays show revolution emancipation and Reconstruction are not separate eras in U S history but rather linked and ongoing processes that began in the 1770s and continued through the nineteenth century Contributors Christopher James Bonner Kellie Carter Jackson Andrew Diemer Laura F Edwards Van Gosse Sarah L H Gronningsater M Scott Heerman Dale Kretz Padraig Riley Samantha Seeley James M Shinn Jr David Waldstreicher
