Rhetoric Before And Beyond The Greeks:

Rhetoric before and beyond the Greeks Carol Lipson,Roberta A. Binkley,2004-08-06 Focusing on ancient rhetoric outside of the dominant Western tradition this collection examines rhetorical practices in Egypt Mesopotamia Israel and China The book uncovers alternate ways of understanding human behavior and explores how these rhetorical practices both reflected and influenced their cultures The essays address issues of historiography and raise questions about the application of Western rhetorical concepts to these very different ancient cultures A chapter on suggestions for teaching each of these ancient rhetorics is included Rhetoric before and beyond the Greeks Carol S. Lipson,Roberta A. Binkley,2012-02-01 Focusing on ancient rhetoric outside of the dominant Western tradition this collection examines rhetorical practices in Egypt Mesopotamia Israel and China The book uncovers alternate ways of understanding human behavior and explores how these rhetorical practices both reflected and influenced their cultures The essays address issues of historiography and raise questions about the application of Western rhetorical concepts to these very different ancient cultures A chapter on suggestions for teaching each of these ancient rhetorics is included *The African Origins of Rhetoric* Cecil Blake,2010-07-01 Through a critical analysis of ancient African texts that predate Greco Roman treatises Cecil Blake revisits the roots of rhetorical theory and challenges what is often advanced as the darkness metaphor the rhetorical construction of Africa and Africans Blake offers a thorough examination of Ptah hotep and core African ethical principles Maat and engages rhetorical scholarship within the wider discourse of African development In so doing he establishes a direct relationship between rhetoric and development studies in non western societies and highlights the prospect for applying such principles to ameliorating the development malaise of the continent **Introduction to the Literary Art of the Gospel of John** Paul Jaesuk Jo,2022-05-24 The Gospel of John is a magnificent book Intricate fabrics interweave its beautiful robe and its material is a finely twisted linen of many colors Throughout the history of the church interpreters have long been captivated by its loveliness and power Many modern interpreters however would not hesitate to call it puzzling confusing or ridden with riddles at least What is John is therefore a fascinating question that lingers During the last half century literary theories have been brought into the study of the Fourth Gospel with varying degrees of success New analytical lenses are cast over the Gospel to render its secrets but it feels as if only those who are initiated into its mystery have the knowledge Reading and rereading strategies are offered but the path out of the vast labyrinth is difficult to find The Gospel of John however surprisingly reads much like the Old Testament In fact its form is deeply imbued in the styles of Old Testament poetry narratives and prophets that when they are properly understood together John s message comes across clearly Taking a comprehensive view of the styles of the Old Testament this book takes you to see John in its grand design **Global Rhetorical Traditions** Hui Wu,Tarez Samra Graban,2022-09-07 GLOBAL RHETORICAL TRADITIONS is unique in design and scope It presents as accessibly as possible translated primary sources on global rhetorical instruction and practices of

Asia Africa the Near East the Middle East Polynesia and precolonial Europe Each of the book's chapters represents a different rhetorical region and includes a prefatory introduction critical commentary translated primary sources a glossary of rhetorical terms and a comprehensive bibliography The general introduction helps contextualize the project justify its organization and coverage and draw attention to the various features characteristics and/or philosophies of the rhetorics included in the book The book's significance lies in its contributions to both studying and teaching global rhetorical traditions by offering representative research methods and primary sources in a single volume It can be read as scholarship as reference and as textbook

The Present State of Scholarship in the History of Rhetoric Lynée Lewis Gaillet, Winifred Bryan Horner, 2010-03-15 Through two previous editions The Present State of Scholarship in Historical and Contemporary Rhetoric has not only introduced new scholars to interdisciplinary research but also become a standard research tool in a number of fields and pointed the way toward future study Adopting research methodologies of revision and recovery this latest edition includes all new material while still following the format of the original and is constructed around bibliographical surveys of both primary and secondary works addressing the Classical Medieval Renaissance and eighteenth through twentieth century periods within the history of rhetoric The Present State of Scholarship in the History of Rhetoric doesn't simply update but rather recasts study in the history of rhetoric The authors experienced and well known scholars in their respective fields redefine existing strands of rhetorical study within the periods expand the scope of rhetorical engagement and include additional figures and their works The globalization and expansion of rhetoric are demonstrated in each of these parts and seen clearly in the inclusion of more female rhetors discussions of historical and contemporary electronic resources and examinations of rhetorical practices falling outside the academy and the traditional canon New to this edition is a cumulative review of twentieth century rhetoric along with a thematic index designed to facilitate interdisciplinary or specialized study and scholarly research across the traditional historical periods As programs incorporating rhetorical studies continue to expand at the university level students and researchers are in need of up to date bibliographical resources No other work matches the scope and approach of The Present State of Scholarship in the History of Rhetoric which carries scholarship on rhetoric into the twenty first century

Ancient Non-Greek Rhetorics Carol S. Lipson, Roberta A. Binkley, 2009-04-03 Ancient Non Greek Rhetorics contributes to

the recovery and understanding of ancient rhetorics in non Western cultures and other cultures that developed independently of classical Greco Roman models Contributors analyze facets of the rhetorics as embedded within the particular cultures of ancient China Egypt Mesopotamia the ancient Near East more generally Israel Japan India and ancient Ireland

Rhetoric in the Rest of the West Shane Borrowman, Marcia Kmetz, Robert L. Lively, 2010-04-16 While the study of the history of rhetoric has expanded to include an ever growing range of rhetorical traditions lesser known figures and under and un studied texts it has continued to exist in the hermetically sealed binary of West and Rest Rhetorical scholars have begun uncovering the many marginalized rhetorical traditions silenced by the homogenous nature of our histories themselves reading and writing new histories of the rhetorical tradition through frames from gender to geography Despite these substantial challenges to the traditionally received history of rhetoric many voices are still silenced and many spaces are still excluded voices speaking within the spaces of the less than monolithic West itself This silencing and excluding continues perhaps because of assumptions that no texts exist from these marginalized voices or that substantial rhetorical activity was not conducted in these marginalized spaces regardless of already extant evidence of rhetorical activity as diverse as rural civic ethos in Classical Greece and Etruscan influences on Roman rhetoric or long standing passive knowledge of scholarly activity in Medieval Andalusia and Ireland

Rhetoric in the Rest of the West attempts to expand the conversation in those gaps in the history of rhetoric by examining the traditions that lost the cultural competition and have been shrouded in the shadow of the rhetorical tradition
