Revolution Rojava Frauenbewegung Kommunalismus Zwischen:

Revolution in Rojava Anja Flach, Ercan Ayboga, Michael Knapp, 2018-09 *Utopianism in the Middle East and North Africa* Thomas Pierret, Simon Wolfgang Fuchs, 2025-03-31 This is the first systematic exploration of the diversity of utopian thought and practice in the modern Middle East and North Africa Beyond intellectual debates utopianism has infused the many ideologies that have shaped contentious politics and governance in the region from state formation to revolutionary transformations conflicts and the recent authoritarian resurgence Drawing on case studies from Egypt Turkey Iran Syria Tunisia and Saudi Arabia contributors address a broad array of utopian visions pertaining to political ideologies such as liberalism secularism Islamic revivalism and socialism but also to fields of expertise and technologies such as urbanism the atom and artificial intelligence Likewise they acknowledge the diversity of players that partake in the production of utopias including writers ideologues activists statesmen experts artists and social media users Moreover authors consider both imaginaries promoted by challengers to the incumbents and visions that serve the consolidation of authoritarianism

Routledge Handbook of Postcolonial Politics Olivia U. Rutazibwa, Robbie Shilliam, 2018-02-21 Engagements with the postcolonial world by International Relations scholars have grown significantly in recent years The Routledge Handbook of Postcolonial Politics provides a solid reference point for understanding and analyzing global politics from a perspective sensitive to the multiple legacies of colonial and imperial rule The Handbook introduces and develops cutting edge analytical frameworks that draw on Black decolonial feminist indigenous Marxist and postcolonial thought as well as a multitude of intellectual traditions from across the globe Alongside empirical issue areas that remain crucial to assessing the impact of European and Western colonialism on global politics the book introduces new issue areas that have arisen due to the mutating structures of colonial and imperial rule This vital resource is split into five thematic sections each featuring a brief orienting introduction Points of departure Popular postcolonial imaginaries Struggles over the postcolonial state Struggles over land Alternative global imaginaries Providing both a consolidated understanding of the field as it is and setting an expansive and dynamic research agenda for the future this handbook is essential reading for students and scholars of International Relations alike The Autonomous Administration of North and East Syria: Between A Rock and A Hard Place Thomas Schmidinger, 2020-11-28 This book is based on papers presented at the conference However it is not a typical publication of academic conference proceedings because the topics are not completely congruent with those of the conference Some lectures that could not be held due to travel restrictions related to the coronavirus pandemic were submitted as book contributions In addition I also wrote a short contribution on the Jewish history of the region which has been often neglected in previous presentations of the region The various authors for this volume have been intensively involved with the region in recent years However the authors do not only focus on the situation on the ground but also on the international context of the autonomous administration The conflict in Syria is no longer just a civil war but a transnational

conflict with important roles played not only by actors such as Russia or the USA but also Turkey or Iran Given the transnationality of the conflict and the role of the hegemonic powers these authors share thoughtful analyses from very different perspectives It is important to share these diverse views with the world so that the tragic conflict might become more comprehensible This does not mean however that I necessarily advocate each particular position taken by the varied contributors to this book The intent is to offer you multiple perspectives and certainly not a common narrative *Kurdish Studies Archive*, 2024-10-28 Kurdish Studies Archive publishes the content of volumes 1 to 10 of Kurdish Studies This interdisciplinary and peer reviewed journal was dedicated to publishing high quality research and scholarship Since 2023 the journal has been continued as the new Kurdish Studies Journal published by Brill and focuses on research scholarship and debates in the field of Kurdish studies in a multidisciplinary fashion covering a wide range of topics including but not limited to economics history society gender minorities politics health law environment language media culture arts and education

Battle for the Mountain of the Kurds Thomas Schmidinger, 2019-03-01 In early 2018 Turkey invaded the autonomous Kurdish region of Afrin in Syria and is currently threatening to ethnically cleanse the region Between 2012 and 2018 the Mountain of the Kurds Kurd Dagħ as the area has been called for centuries had been one of the quietest regions in a country otherwise torn by civil war After the outbreak of the Syrian civil war in 2011 the Syrian army withdrew from the region in 2012 enabling the Party of Democratic Union PYD the Syrian sister party of Abdullah calan s outlawed Turkish Kurdistan Workers Party PKK to first introduce a Kurdish self administration and then in 2014 to establish the Canton Afrin as one of the three parts of the heavily Kurdish Democratic Federation of Northern Syria which is better known under the name Rojava This self administration which had seen multiparty municipal and regionwide elections in the summer and autumn of 2017 which included a far reaching autonomy for a number of ethnic and religious groups and which had provided a safe haven for up to 300 000 refugees from other parts of Syria is now at risk of being annihilated by the Turkish invasion and occupation Thomas Schmidinger is one of the very few Europeans to have visited the Canton of Afrin In this book he gives an account of the history and the present situation of the region In a number of interviews he also gives inhabitants of the region from a variety of ethnicities religions political orientations and walks of life the opportunity to speak for themselves As things stand now the book might seem to be in danger of becoming an epitaph for the Mountain of the Kurds but as the author writes the battle for the Mountain of the Kurds is far from over yet *Revolution in Rojava* Anja Flach, Ercan Ayboga, Michael

Knapp, 2015-06-23 **The Kurds in Erdogan's "New" Turkey** Nikos Christofis, 2021-12-30 This book focuses on the AKP government since 2002 during which time the state s approach to the Kurdish Question has undergone several changes Examining what preceded and followed the failed putsch of 2016 it explains and critiques that situates the Kurdish Question in its broader context It stands out with the main objective to avoid any policy oriented bias through an interdisciplinary and multi thematic approach The volume discusses the state and policies in the Kurdish region of Turkey as well as counter

hegemonic discourses that seek to reform existing institutions Some chapters focus on the domestic aspects and gender perspectives of the Kurdish Question in Turkey which focus has been taken over by recent developments in Syria and the Middle East in general Other chapters include a range of new aspects of Turkish society and politics and the international aspects of Ankara s policies and its implications not only inside Turkey but also internationally Taking both domestic and foreign policy aspects into account the book offers a set of innovative explanations for the state of crisis in Turkey and a solid basis for thinking about the likely path forward Scholars researchers and post graduates interested in political theory Kurdish and Middle East politics will find this book invaluable

The Kurdish Women's Freedom Movement Isabel Käser, 2021-08-26 Amidst ongoing wars and insecurities female fighters politicians and activists of the Kurdish Freedom Movement are building a new political system that centres gender equality Since the Rojava Revolution the international focus has been especially on female fighters a gaze that has often been essentialising and objectifying brushing over a much more complex history of violence and resistance Going beyond Orientalist tropes of the female freedom fighter and the movement s own narrative of the free woman Isabel Käser looks at personal trajectories and everyday processes of becoming a militant in this movement Based on in depth ethnographic research in Turkey and Iraqi Kurdistan with women politicians martyr mothers and female fighters she looks at how norms around gender and sexuality have been rewritten and how new meanings and practices have been assigned to women in the quest for Kurdish self determination Her book complicates prevailing notions of gender and war and creates a more nuanced understanding of the everyday embodied epistemologies of violence conflict and resistance

Gendering Nationalism Jon Mulholland, Nicola Montagna, Erin Sanders-McDonagh, 2018-05-24 This volume offers an empirically rich theoretically informed study of the shifting intersections of nation alism gender and sexuality Challenging a scholarly legacy that has overly focused on the masculinist character of nationalism it pays particular attention to the people and issues less commonly considered in the context of nationalist projects namely women and sexual minorities Bringing together both established and emerging researchers from across the globe this multidisciplinary and comparison rich volume provides a multi sided exploration of the shifting contours of belonging and Otherness generated by multifarious nationalisms The diverse and context specific positionings of men and women masculinities and femininities and hegemonic and non normative sexualities vis vis nation alism are illuminated through a vibrant array of contemporary theoretical lenses These include historical and feminist institutionalism post colonial theory critical race approaches transnational and migration theory and semiotics
