Political Communication in Britain Dominic Wring, Roger Mortimore, Simon Atkinson, 2016-12-14 This book offers a unique exploration of the 2015 General Election from the perspectives of those most intimately involved as strategists, journalists and analysts. It features contributions from the rival parties, news and polling organizations as well as academic experts who examine all aspects of the campaign. A common theme that emerges is the increasing complexity of the democratic process given the development of a more multifaceted party system and a growing fragmentation in mass media audiences. The UK electoral landscape has changed in 2015: six parties received more than a million votes whereas in the 2010 General Election it was only three. This book provides invaluable insights into contemporary British politics through analysis of an election whose outcome an outright Conservative victory surprised many commentators. It will appeal to students and scholars in the fields of electoral politics and media and communication as well as to practitioners and the wider reader interested in British general elections.

The Dynamics of Political Communication Richard M. Perloff, 2025-07-17 This fully updated fourth edition continues to provide comprehensive coverage of communication and politics, again focusing on the way politics and media impact democracy. The book explores the intersection between politics and communication, drawing from leading scholarship in communication, political science and political psychology. It describes the nature of today's political media, political socialization, key media effects such as agenda setting and framing, myths, biases and facts in political news, political advertising and presidential debates. This edition includes new and expanded discussions of free speech and misinformation on social media, presidential rhetoric, the 2022 and 2024 election campaigns and the January 6th investigation narrative. It also examines international examples such as the Ukraine War, populism in Hungary and Turkey, Russian propaganda and TikTok. The book is ideally suited for upper-level undergraduate and graduate political communication courses in communication, journalism and political science programs. This edition again features online resources with links to relevant news articles, videos or other online materials. For instructors, an instructor's manual including sample syllabi, chapter outlines, sample discussion questions, sample test questions and lecture slides are also provided. Mediated Campaigns and Populism in Europe Susana Salgado, 2018-12-07 This book analyses the coverage of elections that occurred between September 2015 and February 2016 in six European countries: Greece, Portugal, Poland, Croatia, Spain and Ireland. The sample examined includes all news stories published during the official electoral campaign in different types of media outlets: three newspapers per country covering centre-left and centre-right wing political leaning as well as reference and tabloid papers; three main television news broadcasts covering commercial, private and public broadcast television channels; and three papers that are published only online, taking into account their levels of audience and importance within each national media and political system. The book also examines
