

CO-ORDINATE GEOMETRY

CO-ORDINATE SYSTEM

The Co-ordinate System is determined by two perpendicular lines, one horizontal and one vertical. The horizontal line is x-axis and the vertical line is y-axis. The point 'O' intersection of these axes is called the origin.

The plane determined by the x- and y-axes is called a co-ordinate plane or xy-plane.

The lines divide the plane into four regions called quadrants and are numbered as I, II, III and IV as shown below:

This two dimensional system is called "Cartesian co-ordinate System" or simply "Co-ordinate System".
