A Distinct Flair for Words Linda Banche, Love and the Library A celebration of the beginnings of love wherein young Regency gentlemen meet their matches over a copy of Pride and Prejudice at the library Book 3 Felicity and Frank Every woman should have her Mr Darcy unless she prefers Mr Bingley Something strange goes on in that library Not one but two of Mr Frank Wynne s friends found the ladies of their dreams at the library over a copy of Pride and Prejudice Magic Divine providence Hardly Coincidence or luck Perhaps And to

prove or disprove the possibilities he'll go to the library and read *Pride and Prejudice* Day after day after day To his surprise the book is funny and he does like that Bingley chap His lady doesn't appear though Of course not But still Miss Felicity White adores *Pride and Prejudice* But while most ladies swoon over Mr Darcy Mr Bingley is the man after her own heart Happy good natured cheerful outgoing Mr Bingley She loves him so much she even rewrote *Pride and Prejudice* from his perspective Now if she can only find a gentleman like him When Felicity and Frank literally run into each other the enchantment of *Pride and Prejudice* and the library just might strike again A sweet traditional Regency romance but not a retelling of *Pride and Prejudice* 45 000 words about 165 pages 1800 s London romance Regency *Pride and Prejudice* Janeites *Pride and Prejudice* fan fiction author heroine vicar's son hero beta hero comedy sweet romance Bingley British historical fiction second chance at love cruel fiancé duck *Mathematical Modelling of Zombies* Robert Smith?,2014-10-14 In this terrible new COVID 19 world the University of Ottawa is doing its part by offering a 50% discount on this very important book We decided not to rewrite the witty book description though we realize it is tone deaf at the present moment as we wanted to give readers a sense of the tone of this title But don't be deceived while a fun read this book will help you better understand how epidemiologists governments and health care planners use mathematical models to figure out how quickly epidemics and pandemics spread in order to plan appropriately Reading has perhaps never been as important and this book should be at the top of your reading list You're outnumbered in fear for your life surrounded by flesh-eating zombies What can save you now Mathematics of course *Mathematical Modelling of Zombies* engages the imagination to illustrate the power of mathematical modelling Using zombies as a hook you'll learn how mathematics can predict the unpredictable In order to be prepared for the apocalypse you'll need mathematical models differential equations statistical estimations discrete time models and adaptive strategies for zombie attacks as well as baseball bats and Dire Straits records latter two items not included In *Mathematical Modelling of Zombies* Robert Smith brings together a highly skilled team of contributors to fend off a zombie uprising You'll also learn how modelling can advise government policy how theoretical results can be communicated to a nonmathematical audience and how models can be formulated with only limited information A forward by Andrew Cartmel former script editor of *Doctor Who* author zombie fan and all round famous person in science fiction circles even provides a genealogy of the undead By understanding how to combat zombies readers will be introduced to a wide variety of modelling techniques that are applicable to other real world issues biology epidemiology medicine public health etc So if the zombies turn up reach for this book The future of the human race may depend on it *El-Hi Textbooks & Serials in Print, 2005* ,2005 *Body and Identity* Angela Franks,2025-08-15 Angela Franks provides a sweeping intellectual history of identity particularly in terms of how identity relates to the body with an emphasis on the importance of Christianity to this understanding Modern questions about our bodies and how we see ourselves are often complex and problematic To better answer these contemporary questions and navigate identity politics Angela Franks seeks to provide a better understanding of

identity She begins by giving three basic meanings of the term identity through time the true or authentic self and our awareness of ourselves She engages with thinkers from antiquity to present day and investigates the decisive developments that Christianity provided Within Christianity came a new awareness of the distinctive individuality of each person the true self called by God in a way that often breaks away from the solid or fixed structures of identity formation such as family class and nation This more liquid idea of identity continues to evolve in modern times though without its theistic emphasis on God's call The result is a purely liquid self that consists of consciousness and activity but without a grounded self that is either the object or the subject of consciousness This is the empty self we have today one that is given much more to do and less to be

A comprehensive history of identity Body and Identity brings the theological history of the self to the forefront in order to address the empty self and how identity is defined today

Changing Childhood Prejudice Florence Davidson, Miriam Davidson, 1994-11-30 This book presents evidence that childhood prejudice is not only different from the adult kind but also changes in a pattern inverse to that of moral judgement Changing Childhood Prejudice describes longitudinal and cross sectional studies of city and suburban children in grade middle and high school Davidson used interviews to supplement observations made during playing her board game then compared scores on the prejudice that emerged with scores on Kohlberg's Measure of Moral Development Considering childhood prejudice as a detour in the possible strong development of caring character and moral judgement implies a school context smaller warmer and more encompassing than one relying only on mainstreaming and multiculturalism The fact that nearly 40% of the nation's public school children will be from minority backgrounds within a few years requires new goals including influencing parents The authors call for school by school mission statements drawing parents into cooperative development of anti prejudice and character curricula supplementing the leadership of faculty members and some adolescents New roles for the mental health community are also described Examining the research of others and their own case studies from cognitive clinical and social perspectives the Davidsons conclude that ways of opposing prejudice and insisting on caring can be adapted to children's changing moral assumptions at each level of schooling Children's might makes right and favor trading assumptions in grade school change through identification with a conforming goodness Conformity can be gradually replaced by independence in ideals particularly when secondary students ponder their own community service Coauthored by a clinician and a professional writer the book tells how to achieve more caring in public schools and more cooperative discipline at home
