Prentice Hall United States History Teacher:

American Memories Joachim J. Savelsberg, Ryan D. King, 2011-09-01 In the long history of warfare and cultural and ethnic violence the twentieth century was exceptional for producing institutions charged with seeking accountability or redress for violent offenses and human rights abuses across the globe often forcing nations to confront the consequences of past atrocities The Holocaust ended with trials at Nuremberg apartheid in South Africa concluded with the Truth and Reconciliation Commission and the Gacaca courts continue to strive for closure in the wake of the Rwandan genocide Despite this global trend toward accountability American collective memory appears distinct in that it tends to glorify the nation's past celebrating triumphs while eliding darker episodes in its history In *American Memories* sociologists Joachim Savelsberg and Ryan King rigorously examine how the United States remembers its own and others' atrocities and how institutional responses to such crimes including trials and tribunals may help shape memories and perhaps impede future violence *American Memories* uses historical and media accounts court records and survey research to examine a number of atrocities from the nation's past including the massacres of civilians by U.S. military in My Lai Vietnam and Haditha Iraq The book shows that when states initiate responses to such violence via criminal trials tribunals or reconciliation hearings they lay important groundwork for how such atrocities are viewed in the future Trials can serve to delegitimize violence even by a nation's military by creating a public record of grave offenses But the law is filtered by and must also compete with other institutions such as the media and historical texts in shaping American memory Savelsberg and King show for example how the My Lai slayings of women children and elderly men by U.S. soldiers have been largely eliminated from or misrepresented in American textbooks and the army's reputation survived the episode untarnished The American media nevertheless evoked the killings at My Lai in response to the murder of twenty-four civilian Iraqis in Haditha during the war in Iraq Since only one conviction was obtained for the My Lai massacre and convictions for the killings in Haditha seem increasingly unlikely Savelsberg and King argue that Haditha in the near past is now bound inextricably to My Lai in the distant past With virtually no criminal convictions and none of higher ranks for either massacre both events will continue to be misrepresented in American memory In contrast the book examines American representations of atrocities committed by foreign powers during the Balkan wars which entailed the prosecution of ranking military and political leaders The authors analyze news accounts of the war's events and show how articles based on diplomatic sources initially cast Serbian President Slobodan Milosevic in a less negative light but court-based accounts increasingly portrayed Milosevic as a criminal solidifying his image for the public record *American Memories* provocatively suggests that a nation's memories don't just develop as a rejoinder to events they are largely shaped by institutions In the wake of atrocities how a state responds has an enduring effect and provides a moral framework for whether and how we remember violent transgressions Savelsberg and King deftly show that such responses can be instructive for how to deal with large-scale violence in the future and hopefully how to deter it A Volume in

the American Sociological Association's Rose Series in Sociology Teaching American History in a Global Context Carl J. Guarneri, Jim Davis, 2015-07-17 This comprehensive resource is an invaluable teaching aid for adding a global dimension to students' understanding of American history. It includes a wide range of materials from scholarly articles and reports to original syllabi and ready-to-use lesson plans to guide teachers in enlarging the frame of introductory American history courses to an international view. The contributors include well-known American history scholars as well as gifted classroom teachers, and the book's emphasis on immigration, race, and gender points to ways for teachers to integrate international and multicultural education into America in the World and the World in America in their courses. The book also includes a Views from Abroad section that examines problems and strategies for teaching American history to foreign audiences or recent immigrants. A comprehensive annotated guide directs teachers to additional print and online resources. *Resources in Education*, 1999-04 **Why You Can't Teach United States History without American Indians** Susan

Sleeper-Smith, Juliana Barr, Jean M. O'Brien, Nancy Shoemaker, Scott Manning Stevens, 2015-04-20 A resource for all who teach and study history, this book illuminates the unmistakable centrality of American Indian history to the full sweep of American history. The nineteen essays gathered in this collaboratively produced volume, written by leading scholars in the field of Native American history, reflect the newest directions of the field and are organized to follow the chronological arc of the standard American history survey. Contributors reassess major events, themes, groups of historical actors, and approaches, social, cultural, military, and political, consistently demonstrating how Native American people and questions of Native American sovereignty have animated all the ways we consider the nation's past. The uniqueness of Indigenous history as interwoven more fully in the American story will challenge students to think in new ways about larger themes in U.S. history, such as settlement and colonization, economic and political power, citizenship, and movements for equality, and the fundamental question of what it means to be an American. Contributors are Chris Andersen, Juliana Barr, David R. M. Beck, Jacob Betz, Paul T. Conrad, Mikal Brotnov, Eckstrom, Margaret D. Jacobs, Adam Jortner, Rosalyn R. LaPier, John J. Laukaitis, K. Tsianina Lomawaima, Robert J. Miller, Mindy J. Morgan, Andrew Needham, Jean M. O'Brien, Jeffrey Ostler, Sarah M. S. Pearsall, James D. Rice, Phillip H. Round, Susan Sleeper-Smith, and Scott Manning Stevens. *Research in Education*, 1973-12

Hess,2009-05-26 In a conservative educational climate that is dominated by policies like No Child Left Behind one of the most serious effects has been for educators to worry about the politics of what they are teaching and how they are teaching it As a result many dedicated teachers choose to avoid controversial issues altogether in preference for safe knowledge and safe teaching practices Diana Hess interrupts this dangerous trend by providing readers a spirited and detailed argument for why curricula and teaching based on controversial issues are truly crucial at this time Through rich empirical research from real classrooms throughout the nation she demonstrates why schools have the potential to be particularly powerful sites for democratic education and why this form of education must include sustained attention to authentic and controversial political issues that animate political communities The purposeful inclusion of controversial issues in the school curriculum when done wisely and well can communicate by example the essence of what makes communities democratic while simultaneously building the skills and dispositions that young people will need to live in and improve such communities *Encyclopedia of Education and Human Development* Stephen J.
