Japanese Religions on the Internet Erica Baffelli, Ian Reader, Birgit Staemmler, 2013-05-13 Japanese Religions on the Internet draws attention to how religion is being presented represented and discussed on the

Japanese Internet Its intention is to contribute to wider discussions about religion and the Internet by providing an important example based on one of the Internet s most prominent languages of how new media technologies are being used and are impacting on religion in the East Asian context while also developing further our understandings of religion in a technologically advanced country Scholars studying the relationship of religion and the Internet can no longer work on prevailing notions that have thus far characterised the field such as the assumption that the Internet is a Western centric phenomenon and that studies of English language sites relating to religion can provide a viable model for wider analyses of the topic Despite this growing amount of research on religion and the Internet comparatively little has focused on non Western cultures The general field of study relating to religion and the Internet has paid scant attention to Asian contexts The field needs a full length and comprehensive study that focuses on the Japanese religious world and the Internet not merely to redress the imbalances of the field thus far but also because such studies will be central to the emerging field of the study of religion and the Internet in future They will provide important means of developing new theories constructing new paradigms and understanding the underlying dynamics of this new media form **Asian Comics** John A.

Lent,2015-01-05 Grand in its scope Asian Comics dispels the myth that outside of Japan the continent is nearly devoid of comic strips and comic books Relying on his fifty years of Asian mass communication and comic art research during which he traveled to Asia at least seventy eight times and visited many studios and workplaces John A Lent shows that nearly every country had a golden age of cartooning and has experienced a recent rejuvenation of the art form As only Japanese comics output has received close and by now voluminous scrutiny Asian Comics tells the story of the major comics creators outside of Japan Lent covers the nations and regions of Bangladesh Cambodia China Hong Kong India Indonesia Korea Malaysia Myanmar Nepal the Philippines Singapore Sri Lanka Taiwan Thailand and Vietnam Organized by regions of East Southeast and South Asia Asian Comics provides 178 black and white illustrations and detailed information on comics of sixteen countries and regions their histories key creators characters contemporary status problems trends and issues One chapter harkens back to predecessors of comics in Asia describing scrolls paintings books and puppetry with humorous tinges primarily in China India Indonesia and Japan The first overview of Asian comic books and magazines both mainstream and alternative graphic novels newspaper comic strips and gag panels plus cartoon humor magazines Asian Comics brims with facts fascinating anecdotes and interview quotes from many pioneering masters as well as younger artists
