Quarterly Essay 43 Bad News Murdochs Australian And The Shaping Of The Nation:

Quarterly Essay 43 Bad News Robert Manne, 2011-09-01 This year has seen unprecedented scrutiny of Rupert Murdoch's empire in Britain. But what about in Australia where he owns 70 per cent of the press? In *Bad News* Robert Manne investigates Murdoch's lead political voice here, the Australian newspaper, and how it shapes debate. Since 2002, under the editorship of Chris Mitchell, the Australian has come to see itself as judge, jury, and would-be executioner of leaders and policies. Is this a dangerous case of power without responsibility? In a series of devastating case studies, Manne examines the paper's campaigns against the Rudd government and more recently the Greens, its climate change coverage, and its ruthless pursuit of its enemies and critics. Manne also considers the standards of the paper and its influence more generally. This brilliant essay is part deep analysis and part vivid portrait of what happens when a newspaper goes rogue. The Australian sees itself not as a mere newspaper but as a player in the game of national politics, calling upon the vast resources of the Murdoch empire and the millions of words it has available to it to try to make and unmake governments. Robert Manne, *Bad News*. A devastating expose. Crikey. There are many things to admire about Professor Robert Manne. He's a prolific writer. He's incredibly intelligent. And he's brave. Josh Rosner, *The Canberra Times*. Fairness and integrity are under the microscope in this scathing analysis of Murdoch's flagship, Peter Craven, *Sydney Morning Herald*. In our shrinking broadsheet market, it would be good if the healthiest specimen and the only national one recognised that we need more mutual respect in public debate if we are ever going to sort through the complex problems and opportunities that confront us. Robert Phiddian, *Australian Book Review*.

The Political Bubble Mark Latham, 2014-08-01 Australians once trusted the democratic process. While we got on with our lives, we assumed our politicians had our best interests at heart. Not anymore. That trust has collapsed. Mark Latham joined the Labor Party in the late 1970s, hoping to improve people's lives through parliamentary service. Twenty-five years later, the Opposition Leader ended up as disillusioned as the rest of us. The scorching honesty of *The Latham Diaries* ensured he'd burned his political bridges, but ostracism from the Canberra Club has its advantages. In *The Political Bubble*, Mark Latham is free to explore how parliamentary democracy has lost touch with the people it's supposed to represent. As with most institutions at risk, politics has become more tribal, with left and right-wing fanatics dominating formerly robust mainstream parties. After the disappointment of the Rudd-Gillard years, Tony Abbott promised to restore trust in Australian politics, but as with most of his promises, it was dispensable. *The Political Bubble* looks at the new government's policies, how Abbott is adding to distrust, not solving the problem. What can be done about this democratic deficit? Can our parliamentary system realign itself with community expectations, or has politics become one long race to the bottom? A brilliant analysis of Australia in the era of Tony Abbott and fanatical right-wing politics. ROBERT MANNE *Education Policy and the Australian Education Union* Andrew Vandenberg, 2018-03-09 This book focuses on the politics of teacher resistance to the formation and implementation of neoliberal education policies in Australia. It argues that policies such as publishing examination test results

online amounts to auditing teachers work and assumes incompetence from teachers which ultimately results in diverting teachers from their true professional responsibilities The book outlines the rise of transnational networks that promote market oriented methods of achieving social objectives such as good education for all students and considers a range of explanations for why this education policy was strengthened in Australia in 2010 It also reviews a range of arguments about professional unionism and reflects on the history of the Australian Education Union and its capacity to resist social neoliberalism The book concludes by reporting on a case study in which principals teachers and parents at two ordinary schools in Australia have managed to keep market forces at bay It will appeal to students and researchers in the fields of education and sociology particularly those interested in education policy political ideology unionism and schools
