Maxwell Moulds, James Tuttle, David Lane, 2020-01-20 Hawkmoths are large charismatic insects with highly variable and colourful larvae. Some species are specialised in their habitat preferences but others are widespread and often encountered in gardens. However, little is known about most species and associating the adults with their larvae has previously been difficult or impossible. *Hawkmoths of Australia* allows identification of all of the Australian hawkmoths for the first time and treats species found on mainland Australia, Tasmania and all offshore islands within Australian limits. It presents previously undescribed life histories of nearly all species and provides a comprehensive account of hawkmoth biology including new parasitoids and their hawkmoth hosts. Detailed drawings and photographs show the external and internal morphology of adults and immatures and eggs, larval instars and pupae. Keys are provided for last instar larvae and pupae of the 71 species that the authors have reared. The book is concluded by a glossary, appendices to parasitoids and larval foodplants, an extensive reference list with bibliographical notes and a comprehensive index. The wealth of new information in this book makes it an essential reference for anyone interested in these moths. *Hawkmoths of Australia* is Volume 13 of the *Monographs on Australian Lepidoptera Series*. *The Engineer*, 1859 *Australian Soldiers in South Africa and Vietnam*

Effie Karageorgos, 2016-03-24 The South African and Vietnam Wars provoked dramatically different reactions in Australians from pro-British jingoism on the eve of Federation to the anti-war protest movements of the 1960s. In contrast, the letters and diaries of Australian soldiers written while on the South African and Vietnam battlefields reveal that their reactions to the war they were fighting were surprisingly unlike those on the home fronts from which they came. *Australian Soldiers in South Africa and Vietnam* follows these combat men from enlistment to the war front and analyses their words alongside theories of soldiering to demonstrate the transformation of soldiers as a response to developments in military procedure as well as changing civilian opinion. In this way, the book illustrates the strength of a soldier's link to their home front lives.
